

# REPORT SINKING LIBERTY BELL TO OF BELGIAN RELIEF SHIP

Balkan War Situation Is Again Becoming Acute

GALICIAN BATTLE Russians Continue Successes—Germans Press Forward in North

LONDON, Sept. 13, 8:03 p. m.—A dispatch to Reuters' Telegram Company from Muiden, Holland, says: "The steamer Pomona reports that at 10 o'clock yesterday morning it witnessed the sinking of a British steamer, which was flying the signal of the Belgian relief committee. Ten of the crew of the steamer were rescued by alien trawlers."

The staff of Herbert C. Hoover, chairman of the American Belgian Relief Commission, is investigating the report, but has not been able as yet to confirm whether one of the commission's steamers has been sunk.

## Turks Destroy Towns

LONDON, Sept. 13, 6:55 a. m.—The town of Thracian, Asia Minor, twenty-five miles northwest of Smyrna, is reported to be in flames, according to a Reuters' dispatch from Athens, which says it is inferred that the Turks are destroying the coast towns and retreating into the interior in expectation of the fall of the Dardanelles.

## Drop Bombs On Kent

LONDON, Sept. 13, 11:20 p. m.—An official statement issued by the press bureau says: "A hostile aeroplane visited the Kentish coast late afternoon and dropped some bombs, which resulted in a house being seriously damaged and four persons being injured. The aeroplane was chased off by two naval aeroplanes."

## Sink Norwegian Ship

LONDON, Sept. 13, 12:15 p. m.—An attack with sun fire on a neutral ship by a German submarine is reported in a dispatch from Christiania to Reuters' Telegram Company. The submarine is said to have fired on the Norwegian ship, which was carrying a cargo of wool, last Friday. The crew was saved.

## To Defend London

LONDON, Sept. 13, 9:55 p. m.—It is officially announced that Admiral Sir Percy Scott, former director of naval gunnery practice, has been appointed to take charge of the gunnery defenses of London against attacks by enemy air craft.

## New Submarine Type

LONDON, Sept. 13, 3:45 p. m.—A dispatch to the Morning Post from Petrograd says: "A 'Turen-German' submarine of the new German type has been sighted in the Black sea by the Russian post on the Kerch peninsula in the Crimea. The submarine came up and exchanged shots with the shore before retreating at full speed. In view of the size and type of the underwater boat, it is evident that it made its way by sea to Turkish waters."

## Rumanians Mobilize

LONDON, Sept. 14, 7:10 a. m.—A partial mobilization of Rumanian troops has been ordered in preparation for eventualities following the concentration of Austrian forces in Transylvania, according to reports from Bucharest, says a Reuters dispatch from Athens.

## Populace in Flight

LONDON, Sept. 13, 12 Noon.—A wholesale exodus of the people in virtually all of the towns and villages of the Grodno province of Poland is reported by a correspondent at Minsk. The people are fleeing from the Branyevsk, the junction point of the railway leading to Vilna, Rowno, Brest Litovsk and Minsk. The refugees, numbering thousands, are sleeping in the woods at night, shivering in the cold rains. The authorities are doing their utmost to relieve distress.

## Rumania in Bad Shape

LONDON, Sept. 14, 4:18 a. m.—A dispatch to the Times from Sofia says: "Relations of Rumania with the central powers have reached a critical stage. The German government, in a recent note, demanded permission for the passage of Austrian-German troops through Rumanian territory and the fulfillment by Rumania of an undertaking to supply benzine and other supplies to a value of \$40,000,000. Over two thousand German warships laden with war materials are waiting on the Rumanian frontier."

## Galician Camp Open

BERLIN, Sept. 13, via London, 10:45 p. m.—Leonhard Adel, the war correspondent of the Tagesspiegel, at the Austrian headquarters reports in a dispatch that the Russian resistance on the Serezh river has assumed a most serious aspect and indicates that the new commander has been ordered to hold the remaining Russian positions in Galicia.

The Russians, the correspondent says, are resorting to counter-attacks which are giving General Count Von Bothmer's army much hard work on both flanks on the upper and lower waters of the Serezh river. Yet, these flanks, he says, lie in the broken, semi-mountainous country, where defense from a further attempt to endanger the rear of the army is relatively easy.

"However," the correspondent adds, "the Russians have been able to give particularly energetic push to the operations between Tarnopol and Camptow by the use of steady streams of (Continued on Page 2.)"

# BE IN FRESNO NOVEMBER 11 THURSDAY

Stops Also to Be Made at Dinuba, Porterville and Bakersfield

TO SAN DIEGO Complete Itinerary of Return Trip to Philadelphia Prepared

PHILADELPHIA, Sept. 13.—The complete itinerary of the return trip of the Liberty Bell from the Panama-Pacific exposition in November was announced today. Owing to hundreds of requests to have the historic bell make stops at many western and southwestern towns, the commission had much difficulty in making up the return schedule.

The bell will leave San Francisco November 11. Stops will be made at Fresno, Dinuba, Porterville and Bakersfield, the same day. The bell will arrive at the Panama-Pacific exposition, San Diego, November 12, where it will remain until midnight. Noon on the 13th, a seven-hour stop will be made in Los Angeles. November 15, and a short stop at Yuma, Ariz., at night.

# CANADA TO BEGIN ON MUNITIONS

Statesmen and Bankers Decide to Organize First Factories

OTTAWA, Sept. 13.—Canada is to take up the manufacture of field guns and howitzers for the British government. It was announced tonight. This was decided upon today at a meeting of prominent statesmen and bankers with General Sir "Bobby" Hughes, director of military and general affairs of the British war office. No artillery ever has been made in Canada, but a committee was appointed to organize factories to handle the business.

The manner in which Canada has filled orders for shells led to the proposal that artillery be fabricated here. General Hughes stated that his government was prepared to place orders for from two to three thousand guns for delivery for two years.

# PAN-AMERICANS MEET TOMORROW

WASHINGTON, Sept. 13.—Further steps in the Pan-American effort to restore peace in Mexico will be considered at a third meeting here Wednesday, Sept. 15, continuing the series of Latin-American diplomatic participation in the movement. Mr. Lansing announced the call for a meeting today after a conference with President Wilson.

# ENGLISH PAPER COMES TO DEFENSE OF WILSON

"Mind Our Business and Let President Mind His"—Advice

LONDON, Sept. 14, 4:55 a. m.—The Daily Sketch, a picture paper with an enormous circulation, under the caption, "Don't mind the President," and synopsizing an editorial protest against attacks upon the United States. The Sketch says: "It is time we stopped fearing at America. It is poor policy, bad patriotism and the taste is at least questionable."

Reminding its readers that the population of the United States includes millions of Germans, the paper says: "Whatever his own private sympathies, it is the business of the President to consider the interests and sympathies of his whole people. It is an impertinence for persons outside the United States to express an opinion as to whether the honor of America is inextricably involved. The most we can say is that if President Wilson can maintain peace with honor, it is his bounden duty to do so. We mind our business and leave the President to mind his."

# CANNOT TELL WHY SUBMARINE SANK

HONOLULU, Sept. 13.—Rear Admiral Clifford Joseph Bousch, commander of the Honolulu naval station, announced today that although all available data secured by the examination of the bulk of the submarine F-4 was in his possession, he was unable to tell the cause of the disaster which sent the under-sea craft to the open floor of Honolulu harbor on March 25, costing the lives of Lieutenant Alfred E. Bode, commander, and his crew of 21.

The board of inquiry appointed to conduct the examination begin its final survey today of the battered shell of the submarine which still is in dry-dock here.

# NEW REBELLION BREAKS OUT IN PORTUGUESE CITIES

PARIS, Sept. 14, 5 a. m.—A new insurrectionary movement has broken out not only in Lisbon but in the Principal provincial cities of Portugal, says a dispatch to the Journal from Madrid.

# FRENCH SINK SUBMARINE IN AEGEAN SEA

PARIS, Sept. 14, 4:45 a. m.—A German submarine has been torpedoed and sunk by a French torpedo boat patrolling between Mytilene and Tenedos, says an Athens dispatch to the Journal.

# PRISONER ESCAPES AN OKLAHOMA MOB

Charged With Attack On Little Girl—Jail Is Entered

NOWATA, Okla., Sept. 13.—A mob of several hundred armed men stormed the county jail here tonight in search of J. L. Harkins, who is charged with assault on a 15-year-old girl. It was believed the offender would be overcome and forced to surrender his prisoner.

The mob finally overpowered the sheriff's deputies and forced the doors of the jail, only to find that Harkins had been taken away.

Harkins today was bound over for trial in the district court here. On leaving the court room he was, conducted by the county jail under guard and mob violence was feared. Harkins was identified by the child at the hearing.

Anticipating mob violence, Sheriff James Mayes early tonight dressed his prisoner as a woman and took him by automobile, it is thought to Coffeyville, Kansas.

# ANARCHY PREVAILS IN SOUTH PERSIA

Mob in Control at Ispahan—Government Is Defeated

LONDON, Sept. 14, 4:20 a. m.—Anarchy prevails in Persia, according to the Tehran correspondent of the Reuters' Telegram Company. The government military forces have been defeated in a series of engagements with tribesmen and a number of Swedish officers were reported to have been killed.

The British and Russian colonies at Ispahan, with French and British women missionaries, have been forced to leave for Tehran. Ispahan is said to be controlled by a mob.

# GERMAN-AMERICANS DENOUNCE ENGLAND

Resolutions to Be Sent to President Wilson

BALTIMORE, Sept. 13.—At the closing annual German day celebration at a suburban resort, a resolution denouncing England was read to more than 30,000 persons and unanimously adopted.

The gathering, which was under the auspices of the Independent Citizens' Union of Maryland, was addressed by Dr. C. C. Fieser, of Philadelphia, president of the National German-American Alliance, who introduced the resolution. Copies will be forwarded to President Wilson and Secretary of State Lansing.

The resolution declares in substance that a "nefarious plot" is being formulated to rob the American people of their savings deposits in banks for the development of American industries and to hand these funds over to England to enable her to continue the war to "control" the commerce of the world for all time.

"To control," the resolution reads, "that we, thirty thousand true Americans today assembled to observe the 101st anniversary of the American victory over the British at Baltimore, do solemnly declare our abhorrence of the unpatriotic and pro-British scheme, and we earnestly call upon the President of the United States and the secretary of state to thwart this evil conspiracy."

# MRS. McLOUGHLIN DIES OF POISON

SAN FRANCISCO, Sept. 13.—Mrs. Anna McLaughlin, wife of Edward J. McLaughlin, foreman for the board of public works, died this morning, after taking poison Saturday night.

Mrs. McLaughlin stabbed her husband September 1, following a quarrel. Benjamin Bohrer, her brother, thinks remorse drove her to take her own life.

# NEW YORK, Sept. 13.—Negotiations for the purchase by the Russian government from the Canadian Car & Foundry Company of 100,000 million shells and high explosive shells at a cost of \$25,000,000 have been virtually completed. It was said at the local offices of the company today.

# VON BERNSTORFF GOVERNOR NAMES COMMISSION ON RURAL CREDITS

Mead, Weinstock, Barrows and Brown to Work On Proposed Laws WITHOUT PAY

Announcement Made at Stockton to Irrigation Congress

WASHINGTON, Sept. 13.—Conferees today between President Wilson and Secretary Lansing and between the German ambassador and Count von Bernstorff, brought the situation growing out of German submarine activities to the following status:

(1)—The German ambassador has been furnished with the evidence of officers and survivors of the Arabic, all agreeing that the liner was proceeding peacefully when torpedoed without warning, and has been advised that the United States desires a disavowal of the attack and reparation for the American lives lost.

(2)—The evidence will be sent by Count von Bernstorff to the German foreign office, to which it has not been available before, and probably two days will elapse before Berlin can be heard from. In some quarters it is believed that the foreign office, upon examining the evidence, may change its position and disavow the action of the submarine commander, who, it was charged in the last note, sunk the liner because he thought she was about to attack him.

(3)—The United States has now all the information it needs, and is ready to decide upon its course, but action may be delayed until Count von Bernstorff has had time to exchange communications with his government.

(4)—While the United States will not consent to the granting of a prize or a ransom involving the safety of American lives, it has accepted Germany's assurances that peaceful liners will not be torpedoed without warning, and if Germany desires to arbitrate the amount of indemnity, the question of whether the submarine, or whether her actions justified the submarine commander in believing he was about to be attacked, that probably will be agreed to.

The President and Secretary Lansing were in conference for nearly an hour, and later Count von Bernstorff spent half an hour with the secretary. No announcements were made. It was said in well-informed circles, however, that although the American government was not pleased with the Arabic note, the situation was considered far from hopeless.

The German ambassador is understood to have been given wide latitude by his foreign office in handling the negotiations, which his call today was intended to initiate. All the exchanges from now on probably will come through him, and it is generally believed that the settlement of the Arabic case will be decided by the action of the entire submarine question, including the question of reparation for Americans lost with the Lusitania.

An indication of the close attention the President is giving the foreign situation, and the gravity of which every day is increasing, today when in declining an invitation to deliver an address the latter part of the month, he said:

"We are all hoping and praying that the skies may clear, but we have no control over that on this side of the water, and it is impossible to predict any part of the course of affairs."

No word has come from Vienna, where Ambassador Penfield is presumed to have delivered several days ago the note informing the Austrian-Hungarian government that Dr. Constantin T. Dumba no longer is acceptable as an envoy to the United States. Notice that Dr. Dumba has been recalled is expected at any time. It was said at the state department today that in regard to the military situation, the Austrian-Hungarian military attack, in Ambassador Dumba's plans for handicapping American munitions plants, has not been received, and that so far no action in regard to him had been considered.

# TO EXTEND STRIKE IN CARTRIDGE FACTORY

Four Hundred Workers Ask 15 Per Cent Wage Increase

LOWELL, Mass., Sept. 13.—Arrangements to extend the strike at the plant of the United States Cartridge Company here were made at a meeting of employees tonight.

Four hundred workers struck at midnight last night to enforce a demand for a 15 per cent increase in pay and Sunday work off with pay.

Tonight the strikers asserted that 900 men and 400 women had signed an agreement to form a union. It was also stated that President Samuel Gompers of the American Federation of Labor had ordered the New England organizer, Frank E. McCarthy, to come here to help in the work of organization.

Efforts will be made tomorrow to call out the women workers in an auxiliary plant of the company in South Lowell. Both plants have been working day and night on war contracts for ammunition.

SAN FRANCISCO, Sept. 13.—A message to Hild, Ralph & Co., of this city, owners of the William T. Lewis, which was torpedoed off the coast of Ireland September 2 received today from their London agent stated that it is a doubtless ship. The ship is being permanently repaired. The ship is waterlogged in Hildy Bay, Ireland, where it was towed.

# GOVERNOR NAMES COMMISSION ON RURAL CREDITS

Mead, Weinstock, Barrows and Brown to Work On Proposed Laws WITHOUT PAY

Announcement Made at Stockton to Irrigation Congress

STOCKTON, Sept. 13.—Announcement of the appointment by Governor Johnson of four members of the rural credit commission, authorized by the last state legislature, was made tonight at the International Irrigation Congress in session in Stockton.

The four commissioners are Professor Elwood Mead, professor of rural institutions at the University of California; Dr. David P. Barrows, dean of the University of California; Senator W. E. Brown, of Los Angeles, and Mr. E. Weinstock, of Stockton. The fifth appointment is to be made within a few days, it was announced.

The announcement was made by Mr. Weinstock upon authorization by the governor. The five commissioners are to serve without pay and are authorized to order the twenty-second annual gathering of the International Irrigation Congress, to be held in Stockton tomorrow and on Wednesday and Thursday. The four commissioners are Professor Elwood Mead, professor of rural institutions at the University of California; Dr. David P. Barrows, dean of the University of California; Senator W. E. Brown, of Los Angeles, and Mr. E. Weinstock, of Stockton. The fifth appointment is to be made within a few days, it was announced.

# MAY BORROW \$1,000,000,000

Straight Government Loan for England and France Suggested

NEW YORK, Sept. 13.—The present plan of the joint Anglo-French financial commission, it was reported tonight, is to borrow \$1,000,000,000 in the United States on straight British and French government bonds, without any collateral whatsoever.

This vast sum of money was obtained, it was said, it is to be spent in the last cent in the United States in payment of cotton, wheat and meat and many many commodities shipments, including munitions of war. It will therefore, in the opinion of financial authorities, be classified as a commercial loan.

Whether the neutrality of the United States would be questioned, in case the bankers financing the mammoth loan should accept straight British and French government bonds, without any collateral whatsoever, was a subject of serious consideration. It was said that the financiers familiar with the plan had every reason to believe that the Washington administration would not interfere.

The foregoing was the unanimous opinion tonight of many of the scores of prominent bankers from New York and the chief cities of the country, who have visited the commission at its headquarters here during the three days of its stay in this city. As to its suggestion that the members of the commission decline positively to comment, all that the commission cared to publish as authoritative was voiced by Lord Reading, its chairman, who received newspaper men tonight for the first time.

"We are not in a position to make a statement at the present time," Lord Reading said, "because we are studying the conditions in New York and elsewhere in relation to American exchange in London and Paris. We have received a very considerable number of persons, prominent bankers and other gentlemen, who are interested in the stability of exchange."

"The one thing that is very striking about it is that everybody is agreed, as one would expect, in the great importance to be attributed to regulating the exchange so as to provide more stable conditions than has been the case recently."

The sudden and considerable drop in the exchange naturally disturbs and must disturb commercial relations between the countries—the United States and Great Britain and France—insured as it is so difficult to exchange what the rates of exchange will be; and, moreover, because naturally it makes such a material difference in the prices to be received by the Americans and the prices to be paid by the Englishmen and the Frenchmen.

"There is a consensus of opinion that it is eminently desirable that some step be made by which stability of this exchange can be secured. You have here in the state very large supplies of foodstuffs and other material which you want to export, we on the other hand want to import these goods, and to the commercial man nothing is more difficult than to arrange fixed prices when there is instability such as we have had recently in exchanges."

"We cannot say more than that at the present, but that generally reflects our views on the situation."

Beyond this, Lord Reading and his assistants declined to discuss the situation, except to add that the commission expected to occupy tomorrow its headquarters in the financial section. This will be at the New York Clearing House.

Aside from the financial situation, Lord Reading announced that this mission to the United States had nothing whatever to do with the adjustment of any legal questions between this country and Great Britain, as had been reported.

Rather Surprised

The outstanding feature of the situation that overshadowed by its tremendous importance everything else that has influenced the foreign exchange rates, since their recent slump here today after an illness of several months.

(Continued on Page 2.)

# IRRIGATIONISTS MEET AT STOCKTON; COMING TO FRESNO TOMORROW

L. A. Nares and John Fairweather Among Speakers—Price of Land Too High Says President

STOCKTON, Sept. 13.—More than 2,000 were present here this morning when Richard W. Young of Salt Lake called to order the twenty-second annual gathering of the International Irrigation Congress. Delegates from practically every state in the Union, several Canadian provinces and three states in Mexico, numbering more than a thousand, were on hand and much enthusiasm was manifested during the opening hour.

This meeting of the irrigationists is known as "the congress on wheels" because the convention is to move every other day. Another session is to be held in Stockton tomorrow and on Wednesday and Thursday. In Fresno, from Fresno, the irrigationists go to Sacramento for meetings on Friday and Saturday. The closing session is to be held in San Francisco Monday at the Panama-Pacific Exposition. Several excursions to irrigation projects under way and in actual operation are to be made in different parts of the state.

L. A. Nares, chairman of the California Board of Control, made the introductory address in which he outlined the purpose of the convention, its objects and its hopes. Chairman Nares responded and then President J. R. Case of the congress delivered the first important address of the morning.

Governor Johnson of California arrived and was given an enthusiastic reception. He welcomed the delegates on behalf of the state of California and was interrupted many times with enthusiastic applause.

The rules of the congress and the approving of the report of Secretary Arthur Hooker proved among the important features of the congress during its early hours.

Committees were announced just before the close of the morning session. A resolution providing for a "permanent temple of irrigation" in Salt Lake City was adopted by William L. W. Shurtliff of Salt Lake City. This was referred to the resolution committee for consideration.

# MACHINERY AID TO FARM LIFE

—S. GLEN ANDRUS

STOCKTON, Sept. 13.—S. Glen Andrus, secretary-manager of the Sacramento Chamber of Commerce, took issue with Mr. Smythe on his statement concerning life on the farm, saying machinery had done away with drudgery and that the automobile had eliminated loneliness. He said the farmers chief difficulty was in finding a profitable market for their produce.

His attention to the question of scientific and economic distribution of

# FOR REASONABLE "PREPAREDNESS"

Champ Clark Against Peace-at-Any-Price Or Bankruptcy

HANNIBAL, Mo., Sept. 13.—Speaker Champ Clark, declared in an address here today that he, "like every other American with common-sense," was opposed to "peace at any price." On the other hand, he said, he also was against "bankrupting the country to build battleships and maintain armaments."

"I am in favor of reasonable preparedness," Speaker Clark continued. "In the event of war, we could get sufficient volunteers in four months, but we do need officers. To provide them, double the number of cadets at West Point and Annapolis. Put the surplus of them in command of ships that will cross the seas under the American flag."

"At one time the American marine was the greatest on the seas. The administration is determined to have such a marine again, and if the rest of the country acts sensibly we shall have it."

# SIX FATALITIES DUE TO HEAT

CLEVELAND, Sept. 13.—Four persons were prostrated and the death of six children was attributed to heat today. The temperature was 97 degrees, the hottest day of the year.

# LOST IN COLORADO

DENVER, Sept. 13.—United States foresters are searching the mountains in the Estes park region for a missing hiker, a professor of church history in Sampson, professor of church history in Sampson, Presbyterian Theological Seminary, Austin. He went to Estes Park August 11 and has been missing about two weeks. Mrs. Sampson, who remained in Denver when her husband went to Estes Park, appealed to the forestry officials.

GENERAL FORSYTH DIES. ROCKPORT, Mass., Sept. 13.—General George Alexander Forsyth, U. S. A., retired, died at his home here today after an illness of several months.

# PUT AN END TO FARM DRUDGERY

—WILLIAM E. SMYTHE

STOCKTON, Sept. 13.—Country life is dying in America because of the drudgery of the farmer and the loneliness of his wife, according to William E. Smythe of San Francisco, addressing the twenty-second International Irrigation Congress which opened today in Stockton a seven-day session to be continued in three other cities.

Smythe was introduced as "one of the pioneers" of irrigation in the United States. "The subject of my statement," he said, "is America is dying on the land," he cited statistics to show that between 1900 and 1910, country population increased but 4 per cent while the increase of population in the cities was 40 per cent. Also he said the demand for farm produce increased 22 per cent while the increase of the supplies of the farm was but 2 per cent.

"This congress must deal with these problems until they are solved," said Mr. Smythe. As a remedy against the farmer becoming discouraged, he suggested intensified farming on small acreage.

More than a living can be made on one or two acres if necessary, he said. Under this system, he suggested, the people of the rural sections would be brought together in colonies and which would lead to improvement of the social life of country life.

# PRICE OF LAND HELD TOO HIGH

—PRESIDENT J. B. CASE

STOCKTON, Sept. 13.—President Case, in his opening address declared that the price per acre charged for land was too high for the average farmer to pay.

(Continued on Page 2.)

# VICTIM OF FIGHT ON BANDIT DIES

SAN FRANCISCO, Sept. 13.—Hugh Macbeth, proprietor of the rooming house in which George Nelson fought an all-night battle with San Francisco police Saturday, died tonight as the result of wounds received while attempting to leave the house amid a fusillade of bullets directed at the bandit.

Macbeth died without regaining consciousness. An hour before death came, Chief of Police White received a telegram from Miss Olla Macbeth, the dead man's daughter, directed to her father from Boise, Idaho, which read: "Papa, dear, I'm on my way; tight hard, Olla."

# STORM WRECKS TRAIN; FATALITY

Traffic Seriously Delayed in Wisconsin; Much Property Damage.

MONROE, Wis., Sept. 13.—Late reports only serve to swell the damage resulting from the cloudburst in this section on Sunday, which cost the life of one man, drowned hundreds of thousands of cattle, destroyed two dams and a bridge at Monticello, burned hundreds in their homes at Albany, carried away two miles of Milwaukee track near that place and has practically annihilated railroad traffic in this section for the past twenty-four hours.

The seventeen car Milwaukee special leaving Monroe Sunday night loaded with race horses and concessions for the Wisconsin state fair, was wrecked near Whitewater, one man being reported killed, Henry Geiger, a farmer, is believed to have been drowned. The total damage from cloudburst will run close to \$250,000.

# IRRIGATIONISTS TO BE HERE TOMORROW

L. A. Nares of Fresno, Chairman of California Board of Control, first speaker at Stockton convention and active in preparing for reception at Fresno.

will be held by the different committees heads today. The first of the visitors are not expected to reach Fresno until Tuesday morning. The greater number will arrive about noon, according to the present arrangements.

## FIRST SESSION AT STOCKTON

(Continued from Page 1.)

"With no improvements, without the ground properly graded and with all the expense of upkeep necessary until a crop can be sold it makes a burden that few settlers are able to meet," he said. "Any irrigation projects could be guided more cheaply and better by the men who organize them than by the individual settler, and the hand should be turned over to the farmer in a condition that will enable him immediately to start crop production and the sustenance of his family."

All irrigation enterprises and all government underlings he said, should be in the hands of the department of agriculture, and to the department of agriculture he urged appointment of a federal irrigation committee to investigate all projects under the Carey Land Act with reasonable power to act.

### Not Yet Used

One great function of this congress is to work out a system of settlement and colonization which shall bring to the arid lands the men and women who will develop them, President Case said. There are more than twenty-five government irrigation projects virtually completed, he said, and yet not a single acre of land has been developed. "This is a critical period in the irrigation development of the United States,"

Members of the committee have been busy engaged for the last two weeks in securing a sufficient number of automobiles to convey the delegates and visitors about the district. L. A. Nares, chairman of the California Board of Control, will be host at a luncheon to be given Thursday noon at the Kings river reservoir site.

N. R. Cooper, secretary of the Fresno County Reception Committee, attended the sessions at Stockton yesterday and made plans for the reception of the delegates at Fresno. Mr. Cooper who has been actively engaged in the work for the last two weeks, will return to Fresno this morning.

A meeting to perfect the final arrangements for the entertainment of the great number of visitors expected.

Arrangements for the entertainment of the delegates to the International Congress, who will reach Fresno tomorrow, practically have been completed by the local committee in charge. There is no formal program of entertainment except the 100-mile tour through the irrigated district of this section.

Members of the committee have been busy engaged for the last two weeks in securing a sufficient number of automobiles to convey the delegates and visitors about the district. L. A. Nares, chairman of the California Board of Control, will be host at a luncheon to be given Thursday noon at the Kings river reservoir site.

N. R. Cooper, secretary of the Fresno County Reception Committee, attended the sessions at Stockton yesterday and made plans for the reception of the delegates at Fresno. Mr. Cooper who has been actively engaged in the work for the last two weeks, will return to Fresno this morning.

A meeting to perfect the final arrangements for the entertainment of the great number of visitors expected.

Arrangements for the entertainment of the delegates to the International Congress, who will reach Fresno tomorrow, practically have been completed by the local committee in charge. There is no formal program of entertainment except the 100-mile tour through the irrigated district of this section.

of expense that the poor settler or investor would eventually be crushed. The topic of this session is the colonization of irrigable lands," said Case. "The Investment Bankers' Association of America, now in session in Denver, has appointed a committee to work in harmony with us in determining the status of irrigation projects in this latter colonization for western lands, and in discussing rural credits."

## DISTRIBUTION IS FARM PROBLEM

—D. W. CARMICHAEL

STOCKTON, Sept. 13.—State Aid in Land Settlement" was the subject tonight for an address by Elwood Mead, professor of rural institutions at the University of California, in such an address as rural credits.

Professor Mead was followed by D. W. Carmichael, president of the Sacramento Chamber of Commerce, speaking on "Colonization and Land Settlement through individual effort and private enterprise."

Colonization on a large scale will not be a possibility in any portion of the United States or Canada, Carmichael said until there shall be devised and put into effect an economic and scientific method of distribution of farm products.

"Some method of national or international distribution of farm products must be devised to bring products closer to the consumer and make impossible the centralization of food products and the creation of food trusts," asserted Carmichael.

"State and federal laws should be enacted to require that colonization effort should be conducted under government guarantee. I hope the day may come when California will place upon her statute books such a law that will place every colonizer and real estate dealer under the strict and guiding hand of this state to such a degree that we can advertise to the world that every colonizer in California is 'on the square.'"

Delegates to the congress are to spend tomorrow on several excursions of Stockton to view various irrigation projects. There will be but one session of the congress and that tomorrow night.

## MAY BORROW \$1,000,000,000

(Continued from Page 1.)

commission to establish its hoped-for credit here without offering any collateral whatever. Some of the financiers who called on the commission last night or pronounced ideas that Great Britain and France would only give their money on the security of a federal loan, but would not put up a huge collateral, dollar for dollar of the loan, composed of approved American securities, were startled by the radical proposal that the money should be borrowed absolutely without collateral.

Other financiers were more than startled. The novelty of the plan is said to have taken them by surprise, and so quickly shattered their idea of basing the proposed loan on American collateral as to have required time for consideration before they could give their views. Still other financiers, reflecting the reported views of the commission, pointed out that the United States would be back of the bonds given for the loan—a credit that for generations past has been regarded as good as gold.

## MEXICAN CONFESSES TO KILLING OF AMERICAN

DOUGLAS, Ariz., Sept. 13.—Luis Maldonado, a Mexican, arrested at Camaguey, arrested at Sheriff Hurrey Wheeler and now held in the Agua Prieta jail pending the receipt of an order from General Calles to turn him over to the American authorities on a charge of slaying three men, aged, said to have been under arrest at Bisbee, were smuggling mesquite when the officer attempted to arrest them. During the struggle they rolled down the hillside and Brooks dropped his gun, which Maldonado seized and began shooting at Brooks' head. Then the two men beat Brooks' head in with a stone and escaped, according to the confession Maldonado is said to have made.

## AN EASY WAY TO END CATARRH FOREVER

Simple Home Treatment Relieves Sore of This Dangerous Disease.

The reason why so many people who suffer from Catarrh never seem able to get relief is that they are continually working for a momentary relief of sneezing, itching, burning, soreness, discharges, and such things as give rise to the swollen nostrils and clear the nasal passages by blowing, sniffing, and while the disease is being treated, they are not getting the relief that is so easy to obtain by the use of Catarrh. Catarrh is a germ disease. The air is always full of catarrh germs thrown off by one person and absorbed by another and when the system does fall to throw off such germs they find permanent lodgment in the nose, throat and head and multiply rapidly.

The germ of Catarrh can be destroyed by inhaling the pure medicinal air of Alpine High-Altitude. This medicinal air is a potent combination of all of Europe's purest and healthiest air with a wonderful germicidal action. You breathe it all day long, and your system is purified. A small hand pump, which is used by a San Joaquin Drug Co. and other leading druggists in this vicinity, with every complete treatment, Catarrh is cured. The air is so pure that it will destroy the germ of Catarrh in a few days. It is so pure that it will destroy the germ of Catarrh in a few days. It is so pure that it will destroy the germ of Catarrh in a few days.

## Norwegian Ship Sunk

CHRISTIANIA, via London, Sept. 13, 1915. A Norwegian ship, the "Finnmark," was reported to have been torpedoed by a German submarine on Sunday.

## Riga Well Defended

LONDON, Sept. 13, 4 p. m.—After a three-day visit to the Riga corridor, the Russian general staff has reached the conclusion that the city is in an excellent position for defense.

## Afraid of Austria

ATHENS, Sept. 13, 2 p. m., via Paris, Sept. 14, 1915. A report is reported in diplomatic circles here that there has been a heavy mobilization of Rumanian troops, including several regiments of cavalry, to face an unexpected concentration of Austrians, which is directed presumably against Rumania.

## English Summary

LONDON, Sept. 13, 3:45 p. m.—By one of the better informed sources which, although not in the army and navy, are trustworthy, it is reported that the last set foot on the Rovno-Petrograd railway between Vilna and Dyk, the whole Austro-German force has been striving to gain the railway since the fall of the Polish fortress.

## Will Meet Archibald

WASHINGTON, Sept. 13.—Acting under instructions from the White House, agents of the Department of Justice will meet James G. F. Archibald, the American correspondent in the case of the Greek-Armenian patriarchy, which he protested to the cabinet. The Greek-Armenian patriarchy has been deprived of all power.

## THREE CHINESE ARE MURDERED

SPRINGFIELD, Mass., Sept. 13.—Baw Young, also known as Ng Hok Young, a Chinese laundryman of Greenfield, murdered three of his countrymen yesterday. The failure of the three men to assist him financially in defraying the expenses of a trial for violating the immigration laws, in which he was involved, was given as the motive.

## Self-Reliant Home Doctors

Is what women are called who all over this broad land make their annual collections of roots and herbs, and rely upon recipes which our pioneer mothers found dependable for different family ailments. In one of these recipes, Lydia E. Pinkham's Vegetable Compound had its origin and so successful has it proved that there is hardly a city, town or hamlet in America where some woman who has been restored to health by its use does not reside.

## Selling Food High

LONDON, Sept. 13, 1915. Conditions in Constantinople are described as chaotic by Reuter's correspondent at Athens who bases his dispatch on statements made by persons arriving in Athens today from the Turkish capital. The correspondent telegraphed:

"The inhabitants of Constantinople are suffering greater hardships than

# Three Wonderful Lines of Fall Suits

\$16.75 \$19.50 \$25.00

Each Embodies the Utmost In Style and Value—Every Favored Fall Style Is Represented

Among our extensive showing of new fall suits, the three lines mentioned here are worthy of special attention.

In no past season have we shown such a diversity of correct fall suit styles, so excellent in quality and workmanship at such moderate prices.

Such great variety is shown by but few stores in the largest cities and our prices are invariably lower.

Detroit Electric

\$1975 to \$2275

The car for all the family all the year

The enclosed car is steadily and surely becoming the preferred type of motor car. Its obvious advantages are winning more buyers each year.

And the modern Detroit Electric is easily the first choice in the enclosed car field. Each member of the family can drive it safely and expertly because of its simplicity and the positiveness of the control system. On hot days—rich windows down—you enjoy open car coolness. On cold, stormy days—with windows raised—you have closed car comfort. And the Detroit Electric is perfectly silent in operation—it is always clean and there are no fumes or odor of gasoline about it. It has plenty of power and all the speed you need. And because its mechanism is so simple and of such high quality it is always dependable and available. There are some points about the Detroit Electric you will only fully appreciate after a demonstration—when will you have yours?

# MEXICANS ATTACK U. S. ARMY CAMP; AMERICAN KILLED

## General Funston Orders More Troops to Defense of Lower River Border

BROWNSVILLE, Texas, Sept. 13.—Camps tonight along the border were chosen in view of reports that Mexicans might renew the attacks at any time and that today's attack might have been a feint to cover attempted plans of depredations in other sections.

Colonel A. P. Blockson at Fort Brown made a dash in an automobile to the scene of the fight today, calling out patrols and placing officers to search the vicinity. He also made vigorous demands on the Carranza authorities for the arrest of two known bandit ringleaders on the Mexican side of the river.

Today's fight began at dawn. Ten soldiers started the fight. Seven were left in action at the end and one of them was killed. Two Mexicans were seen to pitch forward on their faces during the fight, but their comrades removed all the Mexican wounded.

The ten Americans who participated in the fight are all members of Troop A, Twelfth Cavalry. Private Anthony Kraft, Detroit, Mich., was killed. Trumpeter Harold B. Forney, Watertown, N. Y., was shot through the abdomen and may die.

Attacked at Dawn.

The camp where the fight occurred was in a grove about a mile in a ranch corral. The American detachment slept in this shed and under the ebonny trees beside it. Before the men had been awakened near daylight, one of the soldiers who was starting the breakfast fire saw less than a hundred yards away outside of the corral fence, one man on top of a straw stack and five others on the ground nearby. He shouted a warning.

Sergeant Walsh awakened the command and as the men reached for their rifles, the Mexicans opened fire. This fire, starting from the straw stack, quickly encircled the Americans until they were fighting with detachments of Mexicans, probably totaling thirty, stationed at five separate shelters.

Craft had been with the army four months. Sergeant Walsh, in command, was struck near the end of the fight by a bullet which came through the side of the shed.

The Mexicans stopped firing after about thirty minutes. Search showed where most of them had crawled away through the cotton patches to the cover of the brush, some distance from the corral.

From the brush these men were placed along the river road until they dispersed, apparently at a big ranch above the scene of the fight. It is believed that some of the other Mexicans fell back toward the river. All showed a perfect knowledge of the ranch territory.

### To Attack Chihuahua

SAN ANTONIO, Texas, Sept. 13.—With 8,000 in the hands of Carranza troops and Torreon evacuated by the Villistas, plans have been completed here for a vigorous campaign against Chihuahua City, the capital of the Villa government, and then move on Juarez, says a message from Torreon, received by Carranza representatives here tonight.

"It is expected that General Villa will move his troops into Sonora, where he will make an effort to reorganize his forces to recapture lost territory," the message declared. "In this work he will be assisted by General Felipe Angeles, who has just obtained permission to go from El Paso to Nogales over American territory."

### Maytorena Victory

NOGALES, Ariz., Sept. 13.—Governor Jose Maytorena, Villa commander at Nogales, Sonora, across the international border from here, reported tonight that his troops had been the victors in today's fighting six miles southeast of Nogales. No word has been received from General P. Elias Calles, the Carranza commander.

The Villa troops captured 100 prisoners, killed 50, and drove the troops under Calles back several miles, according to Governor Maytorena, who said that casualties among his soldiers were slight.

Earlier reports from the battle had stated that the 1,500 Villa troops engaged were being driven back toward Nogales by a column of 2,000 under Calles. General Urbalejo, the Yaqui Indian chief, was in direct command of the Villa soldiers.

### Embargo on Men

EL PASO, Sept. 13.—As a result of an order issued today by the Texas State health department, operating with United States military authorities, that no male person be permitted to enter Texas from Mexico, except with the express permission of the United States army, Carranza authorities at Pedras Negras have instituted retaliatory measures.

The Mexican authorities at Pedras Negras while not interfering with any one on the Mexican side, desiring to enter Texas, positively refuse to allow Americans or other foreigners to re-enter Mexico at this point.

### More Troops

SAN ANTONIO, Texas, Sept. 13.—Major General Funston, commanding the southern department, today ordered two more troops of cavalry in the lower border. The troops are A and B of the Fourteenth Cavalry, and have been transferred to Fort McIntosh (Laredo). The movement is being effected by rail, the trains already rushing east. Local army officials refused to comment on the significance of the latest movement.

### Execution of Urbina

EL PASO, Sept. 13.—Confirmation of the execution of General Tomas Urbina by General Villa at Las Nuevas, south of Durango, reached here today.

### Redding Church and Parsonage Burned; Probably Incendiary

REDDING, Cal., Sept. 13.—The Presbyterian church and the parsonage occupied by Rev. J. E. Dugan were burned early today. It is believed by investigators that the damage to the church and parsonage and the personal belongings of the pastor, another dwelling belonging to Lester Hunter and occupied by E. Dugan of San Francisco near the burned buildings was destroyed.

In a dispatch from the northern chief town at the time the acts were given out officially in Washington today. The dispatch as received from General Villa concludes:

"General Urbina and a guard of soldiers were enticed to the ranch house at Las Nuevas, and when they were approached, arrested with a volley of shots which were directed particularly at Mr. Urbina having surrendered through force, I found it necessary to order his execution in order to save the republic from a man who would cause further trouble. To justify my conduct, I have only to justify my actions. I had committed in San Luis Potosi and in some cases against foreigners, which I have only recently learned of, but have no obtained proof. These are other defensive actions. Urbina was one of the companions of General Villa during the days when Villa was a bandit in western Chihuahua. He entered the Madero revolution as a companion of Villa and stayed with him through the subsequent campaigns.

As second in command, he gave first victory to the Constitutional cause in 1913 by the capture of Durango City, removing therefrom all the loot, amounting, it is said, to millions.

At the taking of Torreon, General Villa sought to restrain Urbina in reckless killing and wholesale looting, but it is said Urbina retorted:

"Leave me alone."

Villa then led his men toward Mexico City, while Urbina went to Zacatecas, where the rich city was looted.

While the convention forces were pressing around Mexico City last February, Urbina was operating against Tampico from San Luis Potosi.

The Constitutional governor, Adolfo Flores, of the state, excited Urbina's displeasure and Urbina, it is declared, executed the governor and the staff of officials.

As the occupation of Aguascalientes, General Villa is said to have told him that the Constitutional policy called for an end of looting and assassinations, and that he must obey.

"That's Felipe Angeles' work," Urbina was said to have retorted. "Haven't I been a better man to you than Angeles?"

Villa witnesses said, was infuriated, but did not order his arrest because of his need of Urbina's service.

### EXPERTS OF AMERICA OPEN ROAD CONGRESS

Two Great Associations  
Joined to Secure  
Better Highways

OAKLAND, Sept. 13.—With road experts from each of the United States as well as from Canada, Guatemala and San Salvador in attendance, the five day session of the Pan-American Road Congress was inaugurated here today in the municipal auditorium.

The opening session was given over to a series of addresses of welcome by state and civic officers. Former State Senator John W. Steason represented Governor Johnson, and the delegates were welcomed on behalf of Governor Lister by Washington by A. E. Meath, Washington state treasurer.

In addressing, James H. MacDonald, former road commissioner of Connecticut, declared that another epoch in the history of road building had been started by the convention, in that the two associations of road builders—the American Road Builders Association and the American Road Congress—had joined together for the meeting.

During the afternoon session a paper by Logan Miller, Jr., director of the office of public roads, the United States Department of Agriculture, addressed the placing of adequate power to supervise and regulate county bond issues in the hands of a central state highway department, as the solution of the evils of long term bonds for short time utilities.

A paper by Henry S. Graves, chief of the United States bureau of forestry, declared that the government's present plan of road building in national forests should be modified in order to make them more serviceable to the people at the present time, which he termed "the most serious problem stage of the regions development."

SEATTLE, Sept. 13.—A resolution favoring military preparedness as necessary in a program of peace was adopted today by the Puget Sound conference of the Methodist Episcopal Church in session here. Some delegates attempted to insert further plans for national defense, but the majority voted that while the United States should stand for universal peace, it should be prepared to defend itself if attacked.

### METHODISTS FAVOR PEACE PREPAREDNESS

NEW YORK, Sept. 13.—The Postal Telegraph-Cable company has made a second reduction in the leased wire rate for the press at night, according to an announcement by the company tonight. This second reduction is one-half of the present rate, and makes the night rate one-fourth of what it was sixty days ago.

### AGAIN REDUCES LEASED WIRE RATE

### HOLD INITIAL WOMAN VOTER CONGRESS TODAY

Mrs. O. P. Belmont to  
Preside in Meeting at  
San Francisco

SAN FRANCISCO, Sept. 13.—The first Woman Voters' convention ever held in the United States will open tomorrow with a luncheon, presided over by Miss Charlotte Anita Whitte, chairman of the congressional union of California. Mrs. O. H. P. Belmont, of New York, as general chairman of the convention, will make the opening address.

The convention, which is to be held under the auspices of the Congressional Union for Woman Suffrage, will close with a rally next Thursday night. It is expected that more than 3,000 delegates will be in attendance and already representatives are here from twenty-six states.

Speaking today on the outcome of the convention, Miss Anita Whitte, chairman of the National Congressional Union, of Washington, D. C., said:

"This convention representing 4,000,000 enfranchised women, marks, we believe, the beginning of the end in the long struggle for the right of the woman to the ballot."

"The convention has been called to decide ways by which the women voters may use their voting strength to win suffrage for all other women."

HAVANA, Sept. 13.—By order of the secretary of public instruction, Enrique Garcia, the teaching of English in the public schools of Cuba was abolished today. The secretary believes that the time of the pupils can be more profitably employed in other studies.

NEW YORK, Sept. 13.—The Postal Telegraph-Cable company has made a second reduction in the leased wire rate for the press at night, according to an announcement by the company tonight. ### PROVE TOO MUCH

The newspaper controversy on the non-partisan referendum has begun and the omniscient campaign will soon begin. May they both be victorious. For it is by no means that attention is attracted, and all this question needs is attention.

So far, the arguments of the partisans, if they prove anything, prove too much. It is claimed that people have "an inherent right to organize into parties," and that this includes the inherent right to have party tickets, printed as such, on the official ballots. If this argument holds, then it applies to city, county, school and judicial offices quite as much as to the governor and members of the legislature. All these officials were once elected on party tickets and are still so elected in most states. In this state we have found the non-partisan system better and it is now in successful operation as to nearly all the elective offices in California. This whole hullabaloo is raised over the proposal to extend it to two more—governor and member of the legislature. For we suppose no one is particularly concerned about the method of nominating and electing the surveyor-general or the state treasurer, as to whom all elective systems are equal misfits.

It is also claimed that the statewide campaign for nomination is too much for an individual to undertake. If this argument is in any point, it applies equally to party or non-party primaries. It is an argument against the whole primary system, and not against the proposed simplification of it.

So, if the partisans are right, we should not merely refuse to take the short step forward now proposed, but we should retrace the long steps we have already taken. We should abolish the whole primary system, party or non-party, and go back to the old system of party conventions. And at these conventions we should put up party candidates for everything, from constables to President.

There are voters who really believe that this is what we should do. They are opposed to the whole modern system of nominations and elections by the people. These voters should cast their ballots, at the coming election, against the non-partisan laws. But all others—and these are in the enormous majority—who believe in the modern system, should vote for this extension of it to the only remaining offices to which it is applicable.

### ONE THING LACKING

Secretary Daniels has announced his naval advisory board, and has secured for co-operation on it a quite remarkable list of men who are experts in every aspect of the problem except one. If Secretary Daniels now wishes advice upon any question connected with the navy except in the question of building and running that navy, his organization is adequate.

Having shown that he respects the skill of every sort of expert, Secretary Daniels will best commend himself to the American people if he will now, by recommending the organization of a naval general staff and by giving it proper encouragement and authority, indicate that he also understands the importance of expert naval advice in naval matters.

### AUTO EVOLUTION

At a recent convention of librarians, it was declared that the automobile had decreased the circulation of public libraries at least 50 per cent. If this decrease indicated a lessening of the serious reading of good books, it would, of course, be an expensive price to pay for the other advantages which have come into life with the automobile. But if, as is more likely, it indicated merely a decrease in the superficial reading of shallow novels, it is likely that the substitution is a distinct gain. A great deal of novel reading has had no useful purpose, except to serve as a means of escape from the loneliness and narrowness of the ordinary humdrum life. That is probably the reason why most novel reading has been done by women. A woman whose life brought her into contact with few people and fewer things could at least escape for awhile into a world of imagination, populated by interesting things to whom interesting things happened. The things might be untrue, the standards false, and the lessons shallow, but it was at least better than sterile monotony.

Now comes the automobile and gives to many of these people a real contact with real things in place of this imaginary contact with imaginary things. No such contact can take the place of that communion with the rarest souls in the world's history which is the life of great books, but it may very well take the place of that mere escape from four walls which was the chief service of petty books.

Another curious incidental use of the automobile has been to serve as a chamber. A woman driving an automobile is now as safe physically at night or in remote and lonely regions without an escort as with one. Being safe physically, custom begins to regard her as safe socially, and our further step in the emancipation of woman thereby follows.

Still another recent automobile innovation has got into law courts.

### APPROVED

So far, the press of the state is unanimous in commending Governor Johnson's statement of his attitude on the Ford and Suhr case. Of course, from the point of view of the extreme revolutionists, this is to be expected. Newspapers are property, and newspaper proprietors are therefore assumed to be on the capitalistic side of what the I. W. W.'s conceive to be a class war. But if newspaper men, including the editors of small country weeklies, are capitalists merely because they have more or less fixed habitation and occupations, so are most other people. And so long as free governments are controlled by majorities, the number of the industrious, the thrifty and the ambitious will always be sufficient to overbalance the mere apostles of destruction and revolution.

There is no question that if the fate of these men in whose behalf this criminal agitation has recently been conducted could be submitted to a referendum of the people of California, or even to a referendum of the laboring people of California, they would fare far better than they are likely to fare at the hands of Governor Johnson.

### KINGSBURG CANVASSER TAKES \$7,200 IN DAY

Message to Growers' Company Secretary Says \$12,320 District's Total

Notification that one member of the district committee at Kingsburg had taken subscriptions to the California Peach Growers' Company in one afternoon totaling \$7,200, was received by J. P. Bolton, secretary of the central committee of organization late yesterday. This brings the total subscriptions at Kingsburg to \$12,320. The message from A. T. Lindgren, secretary of the Kingsburg district, follows:

"Kingsburg, Sept. 12.  
"Mr. J. P. Bolton: It will no doubt be of interest to you to learn that the prospects for subscriptions to the new peach growers' organization is meeting with unqualified success at this point.  
"One of the gentlemen, Mr. Carl J. Nelson, who was delegated to take up subscriptions, circulated his list among some of the business men and farmers of our city yesterday. He met with the most added to the subscription here was \$7,200. This makes a total subscription of \$12,320 to date with little effort.  
"If the business men and farmers of the different sections of the county take hold of your proposition in earnest there is not the slightest doubt but that the \$250,000 necessary for organization can be subscribed in a short time.  
"A. T. LINDGREN."

Secretary Daniels has announced his naval advisory board, and has secured for co-operation on it a quite remarkable list of men who are experts in every aspect of the problem except one. If Secretary Daniels now wishes advice upon any question connected with the navy except in the question of building and running that navy, his organization is adequate.

Having shown that he respects the skill of every sort of expert, Secretary Daniels will best commend himself to the American people if he will now, by recommending the organization of a naval general staff and by giving it proper encouragement and authority, indicate that he also understands the importance of expert naval advice in naval matters.

### PROPOSE EXTENSIONS IN CARRIER SERVICE

Postoffice Plans Single and Double Routes North and East in City

Extensions in the city delivery of mail are being planned by the local postoffice for the residence districts on the north and east of the city. If the plans become effective, between thirty and forty blocks on the north of the city as well as the Hazelwood and Alta Vista tracts to the east, will get single delivery service.

No city delivery is now being made north of Hazelwood and Alta Vista streets, and only single delivery service is in effect on the north of Belmont avenue. The proposals include single and double delivery service in these districts. One additional carrier will be employed if the improvements are made.

### COMMENCES SUIT TO GET SHARES OF STOCK

Payne Alleges Burnett People Refuse to Deliver Stock

R. H. Payne yesterday filed action against the J. H. Burnett Iron Works and the officers of the corporation to compel the secretary of the company to transfer to him 56,214 shares of the capital stock, valued at \$1 per share. It is alleged in the complaint that after the Burnett Iron Works absorbed the Berkman Manufacturing Company, G. H. Berkman assigned 56,214 shares to the plaintiff. Payne claims he has made demand of the secretary of the company to have a certificate of stock issued to him, but that the president and secretary have refused. The suit was filed by Judge A. Daniel of Santa Clara.

### BRINGS SUIT TO COLLECT NOTE

R. Kirkpatrick Howard yesterday brought suit against A. L. Stover and wife to foreclose mortgage on the northwest quarter of the northwest quarter of section 27, township 13 south, range 22 east, containing 12 acres, on account of a \$800 promissory note dated May 25, 1912, in Portland, Oregon, to J. A. Sutton of Oakland. The note has been assigned several times. Paul Lattin and wife, K. Ferlow, John R. Johnson and wife, F. Harrison are made parties to the suit, claiming interest in the mortgaged property. Elmer E. Nichols of Berkeley is attorney for the plaintiff.

## Sketches from Life :: By Temple

"Boobs!"

### GOOD WAY TO SECURE ALL-NIGHT DRUG STORE

Editor Republican: All-night service by the Fresno drug stores is simple and easy. Let the established pharmacies alternately keep open from 10 p. m. to 6 a. m., the open period for each shop to be one month. This plan would involve increased overhead expense, yet I venture to predict that the profits on all-night sales will be double the cost of clerk-hire, fuel and lights. Thus a public need would be served, and the servitors amply compensated.

This plan is not new. It was tried in a town of 25,000 population for Sunday opening, and it met the situation so perfectly that it has been in operation more than twenty years. Only one store does business on Sunday; all the others hang a placard on their front door indicating the open drug store.

Surely this plan is adaptable to Fresno. To start with, the all-night open month for each store can be determined by lot. Some pin-head may argue that it is poor policy to advertise a competitor by hanging a card on his window announcing that the other fellow's shop is open all night—but he forgets that the other fellow, in turn, will advertise him.

Having seen the plan in operation in my native town for many years to the complete satisfaction of all concerned, I commend it most cordially to Fresno.

N. J. LEVINSON  
Portland, Ore., Sept. 11.

### HOLY LAND AS MILITARY CAMP

JERUSALEM. — (Correspondence of The Associated Press).—Armed airplanes and aeroplanes are continually flying over the birthplace of the Prince of Peace at Bethlehem, according to the Holy Land Zion (The Messenger from Zion), a paper published in Palestine by a Swiss mission. Nearly the entire Holy Land has been transformed into a military camp. Soldiers are maneuvering every day on the Mount of Olives, at Golgotha and Jerusalem. The Russian, French and Russian convicts have been turned into barracks and between them and the Jordan, where transportation is made back in the days when Christ came to bring "peace on earth," a road is being constructed for armored motor cars.

Long columns of—buffaloes—driven by Arab peasants, are hauling carts loaded with powder, projectiles and other supplies for the Turkish army, the favorite route of pilgrims in Palestine. Fast-dromedaries of the camel corps maintain communication between the camps in Palestine and the Turkish headquarters. It is supposed that the concentration of the young recruits in the Holy Land is with a view to another attack upon Egypt.

### TUCCHITO CASE TO JURY TODAY

The defense finished yesterday in the trial of Joe Tucchito, accused of attempting an assault on Isabel Sanchez, and instructions will be given to the jury today. Assistant District Attorney Hawson is conducting the prosecution while Attorney Hayes is representing the defense. Judge Knight of Santa Cruz is sitting for Judge Church.

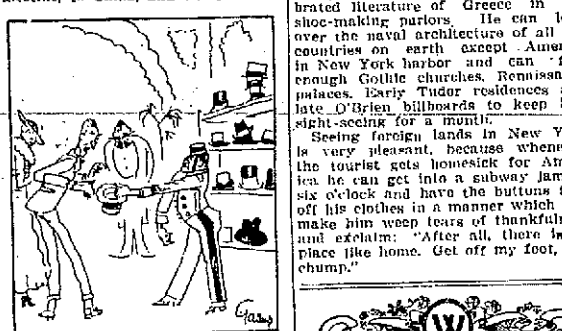

### WANTS NEWS STAND ON STREET

A. B. Knap yesterday filed petition with the city clerk to be granted permission to place a newspaper stand on the principal street corner in Fresno. The petition will come up at the next meeting of the trustees. Knap gives no location for his news stand with the exception of the principal street corner.

**Vest Pocket Essays**  
GEORGE F. BROWN  
Author of "At Good Old Swans"  
See America First—Foreign Lands at Home

Every American desires to travel in foreign lands and seek himself in strange and uncouth customs. However it is not necessary to pay over the exorbitant price of a motor car to do this. All that is necessary is car fare to New York.

New York is the metropolis of America and half a dozen other nations. By feeding a nickel at intervals to the rapacious street car, the visitor in New York can slip lightly from Italy to Hungary, to Palestine, to China, and on to Russia.

The boy who steals hats at the entrance.

without bothering about customs duties. He can find as much difficulty in making himself understood as if America was three weeks and \$200 away, and he can eat meals which are hard to understand and get over as the celebrated table d'hotes of Naples, and Canton, China.

The New York visitor who leaves Fifth avenue and plunges resolutely into the East Side will never see a Sicilian tourist stabbing each other in the back with all the grace and fluency which has made their native land famous. He can worship at Chinese joss houses if he likes and can wade through Russian streets

### NEW NAMES FOR STREETS NEEDED

Editor Republican:—Your editorial of the 13th in regard to street signs should command attention. The visitor looks for the names of the streets as he walks around, and not seeing them, makes inquiry. Even an old resident may not be able to give him the information. I know of more than one who could not name from memory the streets on G street from Silva to California avenue. The streets that parallel the S. P. railroad, being alphabetical, are easily learned. But their one-letter names cause mistakes in writing and over the telephone.

Now it seems to me that, before we put up new and permanent signs, it might be well to rename our streets in a simple and orderly manner. The layout of Fresno does not make this a great undertaking. This would naturally be done by ordinal numbers and by names arranged alphabetically. Then, instead of such names as Eye, You and Cue or Quana streets, we might have, for example, Indiana, Union, and Quindry streets.

I am for good signs to match our improved and improving streets. They are cheaper than poor signs, and will help to make our city still more attractive.

Yours truly,

## "POST PLAYERS" ARRIVE AT THEATER FRESNO

### "WITHIN THE LAW" WILL OPEN SEASON

Miss Melba Palmer, Leading Lady With Post Players—Coming to Theater Fresno

Last evening the James Post company of dramatic players arrived in Fresno, every member happily enthusiastic over the prospect of playing a long engagement at the Theater Fresno, the new home of popular priced drama. The opening of the theater set for Monday, September 29.

The Post Players number among their members a host of clever stage favorites, many of whom have appeared in big Eastern productions, and the whole company is particularly well balanced to present the difficult drama which will be staged during the winter months.

**Resume Rehearsals.**  
Beginning this morning, the company will enter upon the final rehearsals of the sensational drama, "Within the Law," which will be the first play presented at the re-opened playhouse, under the management of Mr. Ed. Hoen.

Mr. Hoen has been getting the house in readiness for the past two weeks for the appearance of the Post Players, and is prepared to promise a most picturesque and realistic setting for the gripping dramatized version of Bayard's powerful story of the successful business employer who is responsible for Mary Turner's downfall.

The leading role in "Within the Law," the first attraction of the season, will be assumed by Melba Palmer, a talented actress of striking personality, who has been associated with the Schubert productions in Eastern cities. The part of Mary Turner, the wronged shop girl, gives Miss Palmer ample opportunity to display her talents to distinct advantage, and those who have seen her in the past say that she gives a creditable portrayal of the character made famous by Margaret Livingston.

Other members of the company which James Post is bringing to the Theater Fresno are: Harriett Lovett, who will play the role of the heroine's mother, Miss Elsie; Miss Blanch Douglas, Miss Evelyn Hambley, Miss Mabel Florence, Miss Martha Dreier, Jack Fraser, Walter McMillan, George Spaulding, Tony Stanford, Arthur Conlon, Harry Rodgers, and a few others, equally as well known.

The Post Players will give a new play each week, with stage equipment and scenic effects built for each production by a master artist, who will collaborate with the stage director.

Manager Hoen has set a standard for high class dramatic productions, at popular prices, which should fill the Theater Fresno nightly, for his former successes in giving the people clean, wholesome entertainment proves that Fresno has its share of lovers of well acted drama.

## PAULINE FREDERICKS PROVES SUPERB SCREEN ACTRESS IN "SOLD"

Vigorous Emotional Drama Scores at Kinema

Celebrated American Star Who Appears at the Kinema in "Sold"

Miss Fredericks' emotional characterization is undeniably. Yesterday's performance at the Kinema proved it, and her next screen appearance in "Zaza" will be eagerly awaited by theater-goers. "Sold" has created a sensation throughout the United States, and well paid the story of a wife, who to save her husband from bankruptcy dares to pose in the nude for his wealthy rival. In time the husband learns of the facts and deception relative to the money, and, misunderstanding her motive, brands her as an outcast and false wife.

Skilfully presented by the Paramount organization and superbly acted by an all-star cast.

As usual, the physical presentation of this Paramount play is without a flaw. One can positively be assured of an aristocratic play, when it is a Paramount—settings, details and artists are all of the highest caliber. Idealistic atmosphere and convincing plot and story are golden backing in skillfulness in the Paramount "big" plays.

In addition to "Sold," the "Diamond from the Sky," a "Police Dog" cartoon and the Pathe Daily News made

## "THE GLANSMAN" IS MASTERPIECE PHOTOPLAY

Scene From "The Glansman" Coming to White Theater

Portraying the darkest chapter in the twelve weeks of its run. From American history, "The Glansman," the greatest picture ever produced, is coming to the White Theater for a limited engagement, opening next Monday night, September 29.

"The Glansman" has greater popular appeal than any picture ever made. This is proven by the fact that over 300,000 people witnessed this masterpiece at Chicago's auditorium in Los Angeles during the winter months.

Tomorrow brings Tom Ince's "Toast of Death," a 2nd special Keystone and "Romance of Elaine."

The morrow brings another well-balanced program of big feature, comedies, topical news and serial. The feature is Tom Ince's "Toast of Death," a four-act play featuring a real and while action. An army of four becomes enmeshed in the tolls of a dancing show—a vampire of the Maharajah's court—and, in the act of drinking the "toast of death" when fortuitous circumstances rescue him from his perilous position.

Another of those new Keystone specials arrives also tomorrow. These new 2-act, Keystone are a revelation—the old style cheap trash has been cast aside, so that the recently high-class Keystone is now a feature on the program in New York's million dollar Strand Theater in New York. The "Romance of Elaine" and the Mutual's Animated News round out the bill at the Kinema tomorrow.

## ANTI-KAMNIA TABLETS FOR ALL PAIN

"The efficiency of any drug," says Dr. C. P. Robbins, "is known to us by the results we obtain from its use. If we are able to control pain and disease by means of any medicine, we certainly are warranted in its use. One of the principal symptoms of all diseases is pain, and this is what the patient most often endures to us for, i. e., something to relieve his pain. If we can arrest this promptly, the patient is most likely to be cured. The other remedies which will effect a permanent cure. One remedy which I have used largely in my practice is Anti-Kamnia Tablets. Many and varied are their uses. I have put them to the test on many occasions, and have never been disappointed. I found them especially valuable for headaches of malarial origin, where quinine was being taken. They appear to prevent the bad after-effects of the quinine. Anti-Kamnia Tablets are also excellent for the headaches from improper digestion also for headaches of a neuritic origin, and especially for women subject to pains at certain times." Two Anti-Kamnia Tablets give prompt relief, and in a short time the patient is able to go about as usual. These tablets may be obtained at all druggists. Ask for A-K Tablets. They are also unexcelled for headaches, neuritis and all pains.

## "FIGHTING BOB" BIG FEATURE AT LYRIC

Although "Fighting Bob," the Metro feature for the Lyric program today, is by Edward E. Ross, the same brilliant writer whose pen fashioned "The Rosary," "Fighting Bob" is a story of entirely different construction.

Edward E. Ross has written many plays, among them "Fighting Bob," "The Rosary," "David Huron," "Rich and Poor," "Janice Meredith," and "Elton Holden." Of all his plays, none has so much tension and dramatic interest as "Fighting Bob," which is a drama dealing with love and a revolution in a Latin-American country, of which Bob is the hero.

"Fighting Bob" was selected by the Metro Picture Corporation as a fitting subject in which to exploit Orrin Johnson, the handsome and popular leading man, and the scenario of the play was turned over to the B. A. Rolfe Photo Play Company to produce. They have turned out a vello photo drama, full of strife and tense scenes and situations of the most absorbing kind.

Lovers of plays of adventure, with an abundance of thrills, military effects, infantry and cavalry, will have their hearts gratified when they see Orrin Johnson in the latest photo-drama, "Fighting Bob."

No wonder Orrin Johnson expressed himself as being in love with the title role he interprets in the Lyric screen drama, "Fighting Bob." It is just such a character as every leading man cherishes and wants to play, for Bob is a hero in every sense of the word.

With "Fighting Bob" on the program today will be "You Know Me, Al, Big League Stuff," by Ring W. Lardner, whose baseball comies in the Saturday Evening Post have amused millions.

"Who Pays?" Thursday "Houses of Glass" is the title of the sixth and most astounding of the "Who Pays?" serial. It will come to the Lyric Thursday with a hand-colored scene and a Pay Tinscher comic.

"The Cub" Soon

Nov Friday and Saturday will witness the first big World Company attraction, which will be Martha Hedman in Thompson Buchanan's attractive new-entrainer story, "The Cub."

"The Chalice of Courage," by the Rev. Cyrus Townsend Brindy, will be the big feature next Sunday and Monday.

FALL CLEAN-UP DAYBirths Twice As Many As  
Deaths for Month  
of August

Deaths, 36; births, 58. Such were Fresno's vital statistics record for the month of August as given out by Dr. A. H. Sweeney, city health officer, at the meeting of the health board last night.

A fall "Clean-Up Day" was advocated by Dr. Sweeney as the best method of destroying breeding places of flies and mosquitoes. A campaign is planned by the health board and will probably be launched through the press, church, schools and civic organizations. The date has not been fixed, but will probably be some time during November.

There were but two quarantine cases during the month. Both were for scarlet fever, and the quarantine was successful in checking the contagion. Assistant City Health Officer W. L. Adams reported forty-one cases cured for at the emergency hospital. Forty-seven nuisances were ordered abated. Fred J. Hays, meat and food inspector, reported that the conditions of markets was good. A thorough investigation of the free market showed that the products and meats were cared for in a sanitary manner.

Of the births, twenty-six were male

FIND INSURANCE  
ON CHEMICAL NO. 3  
IS NULL AND VOID

Insured or not insured, that is the question that is paramount in the minds of the city officials and the representatives of the two insurance companies who wrote policies for the chemical truck which was destroyed in a fire last Wednesday night.

Although the truck was covered by two policies of \$100 each, these policies are technically void. Should the claim be paid, representatives of the companies point out, it will be because their concerns do not wish to hide behind a technical provision, incorporated into the policy for their protection.

Insurance against fire in automobiles, provides that only one company can issue a policy to cover the motor car. City Trustee J. C. Ferger gave the insurance to two companies. Both policies contained the provision, and the agents of the two companies claim that the policy of the other firm was issued without their knowledge or consent.

O. S. Owens, adjuster for the companies, was in this city yesterday. He will make a report within a few days, and the agents of the companies represented believe that he will allow the claim. A \$5000 truck was not a total loss, he may allow only a portion of the amount carried.

children and thirty-two female; fifty-two were white children and six yellow.

FOWLER PEACH MEN  
ORGANIZE TONIGHTGrowers There Plan Most  
Enthusiastic of Recent  
District Meetings

From every indication the district meeting at Fowler tonight in the interests of the organization of the California Peach Growers Company will be one of the most enthusiastic of the local meetings yet held. A number of Fresno men, including William Glass, chairman of the central organization, committee, J. P. Bolton, secretary, William Robertson, member of the committee, Chas. S. Osborn, Jr., and others will attend.

Enthusiasm regarding the meeting already is high in the Fowler district. Though no district organization has been formed and no systematic canvass of the growers made, subscriptions to the stock of the \$1,000,000 growers' association, amounting to nearly \$1,000, already have been sent in. The meeting will be held at 8 o'clock tonight at the Fowler town hall. Growers throughout the peach districts of the Valley are watching the developments in the organization of the company with much interest. Six calls, most of them being a request that the central committee arrange meetings for district organization in different districts, were received yesterday at the Chamber of Commerce, temporary headquarters of the organization.

The only other meeting scheduled as yet for this week is that at Del Rey Thursday night. This meeting will be held at 8 o'clock in the Williamson hall. Though the meeting has been definitely set, a meeting is being arranged for Dinuba, and most probably this will be fixed for the latter part of this week.

CALIFORNIA LEADS IN  
HANDLING OF FISHNational Delegates Are  
Astounded By Methods  
Used Here

Andy Ferguson, in charge of the state fish and game commission work in the Fresno district, has returned from the meeting of the National Society of Fish and Game Commissioners in San Francisco, where he says that delegates from all parts of the country were astounded to find that California is 20 years ahead of any other state in the union in her methods of handling and eating fish.

George H. Graham of Springfield, Mass., chairman of the meeting even went so far as to pay this tribute to the state in addressing the assembly. He laid special emphasis on fish propagation, fish distribution and the magnitude of operations in this state after hearing the addresses and reports from all parts of the country. Signs of the revelations to the delegates follow: most states have no distribution cars for fish, California has two; few had heard of pack horse distribution which the Fresno district employs frequently; most states have poor success in carrying fish for a few hours after the dispatch were autographed when told that here fish are carried for as long as fourteen days.

The reports showing the planting of 15,000,000 trout fry and 18,000,000 salmon fry and the methods of utilizing screens and ladders to take fish through instead of over dams drew the interest of all the delegates.

Most of the delegates after the close of the session left to inspect the state hatchery at Sisson.

So interested were some of the delegates in the reports submitted from the Fresno district that requests were made for pictures of San Joaquin valley fish and game work to be shown in eastern cities.

OLDER BOYS WILL  
PLAN FOR CONFERENCEModesto Meeting Will  
Be Discussed at Gather-  
ing Tonight

Plans for the conference of "Older boys of Northern California," which will be held at Modesto, October 1, 2 and 3 will be discussed at a meeting of the conference club, composed of the older boys of the Fresno high school at 7:30 o'clock tonight at the Y. M. C. A. "Power" will be the theme discussed at tonight's meeting.

The conference at Modesto will open with a banquet the night of October 1. Charles Huthledge of Fresno will speak at this gathering. About thirty boys from the high school are planning to attend. All members are asked to be present at the meeting tonight.

Last year more than 300 members attended the Older Boys Conference, which was held at Sacramento.

SEND YOUTHS TO  
DETENTION HOME

Bennis Shook and Raymond Shook, youthful burglars, were in the juvenile court yesterday and were committed to the county detention home until their parents move from the county. The lads were arrested after they had committed several petty crimes.

Lennie Kincaid was sent to Preston until of age. He is an orphan and was in the juvenile court as an incorrigible.

The case of William McGugin, accused of stealing milk bottles, went over one week.

Pearl Antrim, aged 2, was given into the custody of the probation officer and later turned over to S. B. Beard, the grandfather. The child's mother and father are separated.

COP OF SIX DAYS  
FINDS HIS HEART  
TOO BIG FOR JOB

The business of being a patrolman— which involves arresting people some- times—jaded and rattled the asthetical nature of N. B. Willis, the latest addition to the police force, and he yesterday filed his resignation. Clyde L. Carmichael was appointed to fill the position and began his duties last night.

Willis confesses that he became a "cop" with some apprehension. He did not like it the first day, and thought even less of it the second. On the third day he developed a distinct aversion to his work. Yesterday, his sixth day as an officer, was the limit of his endurance. He resigned because of a "lack of fascination" for his job.

He is said to have told brother officers that he would not be an officer for \$200 per month, and that "he lacked the heart to put a man behind the bars." He returns in a position as motorman with the Fresno Traction Company.

Carmichael lives at 288 Thelma street and has been a mechanic in the employ of City Trustee O. V. Cobb for some time.

SUES TO GET  
DEED TO LAND

Alleging that H. A. Bier is holding deed to lots 31 and 32, block 235, Fresno, in trust for the German Publishing Company but now refuses to deed back to the original owners, the company yesterday brought suit against Bier. Ernest Klette is attorney for the plaintiff.

## PERSONAL MENTION

C. A. Henderson and G. J. Kuhrtz of Los Angeles, officials of the San Joaquin and Eastern railroad, are at the Hughes Hotel. A. D. C. and R. L. Fernald of Richmond are members of a motor car touring party which stopped at the Hughes yesterday.

S. S. Patterson and Mrs. Patterson of New York, who are touring the state and visiting the exhibitions, were at the Sequoia yesterday.

Mr. and Mrs. R. B. Hampton and daughter of Rhodes, Iowa, members of an auto party, were at the Hotel Fresno yesterday.

C. W. Bull of Taft, in Fresno looking after business interests, is at the Grand Central.

A. Goldsmith, a capitalist of Brooklyn, N. Y., and Mrs. Goldsmith, were at the Hughes yesterday. Mr. Goldsmith has business interests in Fresno.

Mr. and Mrs. C. O. Evans and daughter of Long Beach were at the Sequoia yesterday.

S. L. Spaulding, a theatrical man of San Francisco, was at the Sequoia yesterday.

## LOCAL BREVITIES

Stella Curtis and Mrs. C. D. Hansen were arrested by Detectives Broad and Greening last night as social vagrants. The Hansen woman was booked on a charge of drunkenness.

## BORN

MISCOVICH—in Fresno, to the wife of John Miscovlch, 3123 Tulare street, a daughter.

YOU have never tasted 'real' bread  
If you haven't tasted Kleen-Maid"YOU will never be satisfied with any other kind of

## CLAIMS SALARY DUE

I. H. Dubaut started suit against E. B. Boust yesterday to collect \$453 alleged to be due for services rendered with team as day laborer. Kirt Gould is attorney for the plaintiff.

## DR. H. GARDNER BROWN

NO PAIN  
DENTISTFREE!  
Extractions or \$1  
worth of work  
done free  
22 KARAT  
GOLD CROWNS  
\$4.00

DIDN'T HURT A BIT!

Low Prices, No Pain and  
Guaranteed Satisfactory

These are the reasons why my offices have been crowded daily

Because my work is absolutely without pain, because I make the sort of reasonable prices that should be made on dental work, and because I guarantee it to be absolutely satisfactory and high class in every respect—for these reasons I have already built a practice that usually takes years for a conservative dentist to establish. It explains why my offices have been crowded and why more and more people come daily to the only "no pain" dentist in Fresno.

NO PAIN, NO AFTER EFFECTS  
"Painless dentistry," so called, has been boasted for years. But while the operation was painless at the time, these dentists have not been able to guarantee that there shall be no bad after effects.

But I use the newest methods, the latest deductions and discoveries of science, and I am able to guarantee that there will be no pain at ANY time. I use vegetable anesthetics. I have introduced the analgesic method here. I can positively state that there will be no pain.

BETTER DENTISTRY, LOWER PRICES  
Now there is a good reason why I am able to give you better work, and at the same time at lower prices. It doesn't appear possible at first, but a little explanation makes it clear.

One of the big advantages of using no pain methods is that I am able to work without delay. I know that I am not hurting my patient. I can therefore do thorough work. You know what that counts for in dentistry. I can work steadily for my patient, is not cringing and handicapping me.

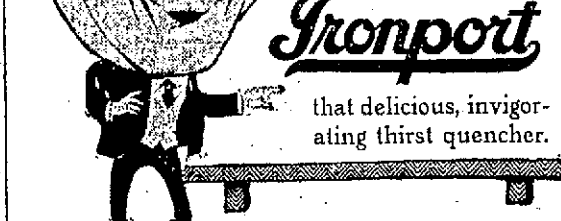

Another big advantage it gives me is that my skill becomes known and as people learn that it is truly no pain dentistry, my practice grows by leaps and bounds. I do not have to make high charges, to

Plates That Won't Slip ..... \$8  
This is a feature of my modern dentistry that I want to impress on all who have suffered or been annoyed and embarrassed by plates that will not stay in place.

I guarantee my plates to be satisfactory. I can do this because I make them by a new method that grips them all around, instead of just in one place.

If you have been troubled by slipping plates, come in for a FREE consultation. Let me examine your mouth, the points of contact, the plates, and the manner in which they fit or fail to fit and determine what is the trouble. This will not cost you a cent. My wide experience enables me to discover the fault in just a minute.

# California Oil News

## CRUDE OIL IS AGAIN INCREASED IN EAST

Five Cents Per Barrel Is  
Added to All Grades  
At Pittsburg

PITTSBURGH, Sept. 13.—Five cents  
a barrel was added to the price of  
principal grades of crude oil today,  
the South Penn Oil Company announce-  
ing these prices: Pennsylvania, \$1.65;  
other prices quoted are: Mercer thick  
and Newcastle, \$1.23; Cabell, \$1.25;  
Coraline, \$1.12; Somerset, \$1.08, and  
Hagland, unchanged at 65 cents.

## MAGNESITE MINE BEGINS ACTIVITY

PORTERVILLE, Sept. 13.—The first  
of a fleet of three five-ton trucks has  
been put into commission hauling  
magnesite from the mines of the  
Porterville Magnesite company east  
of this city to Porterville for ship-  
ment to eastern points. H. S. Doyle,  
the superintendent of the company,  
states that within a short time the  
company will be hauling an average  
output of 100 tons of the raw ore daily.  
Work is now under way assembling  
at the mine the machinery for the  
plant in which the finished prod-  
uct will be turned out. About 20  
men are at work at the present time  
and the force will be largely increased  
in the near future.

## DEPUTY SUPERVISOR RETURNS FROM TOUR

Operators All Over State  
Given Insight Into  
New Oil Law

COALINGA, Sept. 13.—State Deputy  
Oil and Gas Supervisor Mat. J. Kierwan  
has returned last week from a trip  
through the West Side fields. Kierwan  
accompanied the State Mineralogist  
and the State Oil and Gas Supervisor  
on their initial trip over the fields.  
Coalinga had first call, then to Bak-  
ersfield, Taft, Los Angeles, Santa  
Paula, Santa Maria and San Francisco  
at each meeting the new law was very  
thoroughly gone over and explained in  
detail and the operator was advised  
what to do to comply with the law  
and get immediate results. First,  
when a well is to be drilled, re-drilled  
or deepened, the operator will file  
with the deputy a written notice of the  
location giving the location of the well,  
the depth, the level, second—give an  
estimate as to the point where water  
is to be shut off, and where the oil  
sand should be found. If the well is  
to be deepened, give estimates as to  
the depth to oil sand; third, the  
operator will himself, or through  
his agent, give the deputy at least  
five days notice that test is to be made,  
that the deputy may be present at  
such test, note the result in the log  
book of the well. If the result is un-  
satisfactory to the deputy, the owner  
of the well is to be notified in person,  
or through his duly appointed agent  
of that fact.

**Abandonment of Well**  
When a well is to be abandoned the  
agent shall give at least 15 days notice  
in writing, submitting the plan of  
abandonment, and shall give a reason  
of the present physical condition of  
the well. Upon receipt of information  
the deputy shall furnish a written  
order stating what work will be nec-  
essary before approval will be given to  
abandon the well. The purpose of sec-  
tion 16 is to prevent operators from  
pulling casing before properly shut-  
ting off the water, and has been done  
to the detriment of adjoining property.  
It is the purpose of the department  
to have the operator and the deputy  
"get-together", and devise a plan that  
will permanently shut off the water  
from the oil sand, assisting the op-  
erator to handle the problem and save  
the adjoining lands from the infiltra-  
tion of water from abandoned wells.  
The State Mining Bureau will furnish  
each operator with the necessary  
blanks in which the logs of the wells  
are to be written, together with a  
complete history of the well. The  
State Mining Bureau will also supply  
copies will be mailed to each com-  
pany or owner by the supervisor.

Section 29 of the new law provides  
that each operator shall file with the  
supervisor once each month a state-  
ment showing the amount of prod-  
uct, which statement shall take the  
form of amount of oil and the amount  
of water, if any, produced by each  
individual well during the period in-  
dicated in the report filed. These  
figures and information are for the  
benefit of the deputy and the super-  
visor that they may keep in touch  
with the water conditions in the state,  
and not for the purpose of fixing a  
rate for assessment, charges, that is  
taken care of in section 37 of the  
act.

The State Mining Bureau expects  
that each company will comply with  
the law, using its own forms, and  
stationery in making out reports, until  
such time as such forms now being  
worked out by the State Mining  
Bureau are available, when the op-  
erator will be furnished with the proper  
blank forms.

## FINISH DRILLING ROTARY CONTRACT

Federal Company Sink Well to 3,220  
Feet; to Finish With Standard  
Tools—Coalinga Oil Notes

COALINGA, Sept. 13.—The Federal  
Drilling Company has completed its  
contract with the Kern Trading &  
Oil Company in the rotary hole on  
section 1, 20-15, having drilled the hole  
to 3,220 feet and set in the 11-inch  
casing. The Kern Trading & Oil  
Company is now rigging up for the  
standard tools to complete the hole.  
The 8 1/4-inch casing will be set in  
the hole next week and the hole will  
be tested.

The Kern Trading & Oil Company  
is building three new standard rigs,  
one on the north line of section 35,  
20-14, second location west from the  
northeast corner of the section; one  
on the north line of section 1, 20-15,  
to offset the Dutch-Shell rotary drill-  
ing in the southwest corner of section  
25, 19-15, and one rig for location  
16-35, on section 35, 19-15.

The Dutch-Shell Company is build-  
ing a new rotary rig in the southwest  
corner of section 30, 19-15. The  
derrick is 10 to 15 feet high, handling  
joints of casing in each stand.  
The Federal Drilling Company has the  
contract to rotary-drill a hole to  
3,100 feet with 10-inch casing. The  
8 1/4-inch string of casing will shut  
off the water formation.

The Kern Trading & Oil Company  
is building a rotary rig in the north-  
west corner of section 1, 20-15. The  
derrick will be 106 feet high. The  
Federal Drilling Company has the con-  
tract and will commence drilling as  
soon as the rig is completed and  
rigged up.

The Nevada Petroleum Company  
has completed the new derrick and  
rig to replace the one burned last  
month in the southwest corner of  
section 20-20-15. The rig is being  
lined up and will be in service this  
week.

The Standard Oil Company pipe  
line department has received a  
distillate motor truck, one and one  
half tons capacity, for service in this  
field.

The Dutch-Shell Company has  
added one more three-ton motor  
truck to its transportation service.  
Thus the six and eight animal teams  
are fading away.

**NOTICE TO WATER USERS.**  
You are hereby notified that the  
water assessments for season ending  
September 1, 1916, are now due and  
payable at the office of the company,  
1001 Griffith-McCrea building. In-  
terest charges will be made on all de-  
linquencies after September 30th.

## STANDARD STRIKES 4,000 BARREL WELL

No. 8 Goes Into Sand in  
Midway at Depth of  
2,600 Feet

TAFT, Sept. 13.—The No. 8 well of  
the Standard Oil company on section  
28, 31-22, went into heavy oil and gas  
sand Friday morning and later came  
in with a flow estimated at 4,000 bar-  
rels daily. The well came in under  
control but was allowed to flow over  
the derrick, that it might be cleared  
of sand. It was completed at a depth  
of about 2,400 feet.

## BRIEF OIL NOTES OF MIDWAY FIELD

TAFT, Sept. 13.—The Jewett Oil  
company, in its arranging its lease  
for the better gauging of its produc-  
tion has purchased two 1,000-barrel  
tanks. They were hauled out in the  
past few days from the yards of the  
Midway Supply Company.  
The General Petroleum Company is  
down 300 feet with its No. 28 well on  
the Globe Division, on section 15, 31-  
22, in the North Midway. It is being  
drilled with a rotary. Because of  
this being shallow territory indica-  
tions are that it will be completed in  
the next ten days.

A string of 3 1/4-inch 25-pound  
casing has been hauled out from the  
yards of the Tay-Pike company to be  
used in the completion of the No. 13  
well of the Consolidated Mutual Oil  
company, on section 28, 31-22, near  
Fellows. This well was drilled with a  
rotary under contract by the Federal  
Drilling company to a depth of 2,600  
feet where a string of 10-inch was  
landed. It is now being completed  
by the Consolidated Mutual Drillers.

After nearly three years of inactiv-  
ity other than the pumping of its four  
wells, the Mammoth Oil company, on  
section 31, 21-23, near Fellows is to  
drill a new well. It is to be known as  
the No. 6. The derrick is now up and  
drilling is to start with a rotary in  
the next few days. The Mammoth is  
one of the best known properties in  
the North Midway district. It at one  
time having a gusher which flowed  
for several days covering trains with  
oil as they passed nearby.

The General Petroleum company has  
set a string of stove-pipe casing in  
the No. 27 well in the Hildridge dis-  
trict at a depth of 500 feet and is now  
drilling ahead. The well is being  
drilled with a General Electric 75-  
horse power motor.

The No. 13 well of the Standard Oil  
company, on the Derby lease, on sec-  
tion 16, 35-24, is down 2,500 feet with  
a string of 12 1/2-inch casing landed.  
The oil sand is looked for in the next  
200 feet of drilling. Plans are being  
made to complete the hole with a  
string of 10-inch.

## "Cool as a Cucumber!"

You can't hope to be as cool as a  
cucumber in the hot, sultry days,  
but you can keep your body at a  
comfortable temperature by eating  
the foods that make healthy tissue  
without heating the blood. Cut out  
meat for a few days and try

## SHREDDED WHEAT

with berries, sliced peaches, sliced  
bananas or other fruits, with milk  
or cream. It has all the body-build-  
ing material in the whole wheat  
grain made digestible by steam-  
cooking, shredding and baking. It  
is ready-cooked, ready-to-serve. A  
complete, perfect nourishing meal  
for the sultry days.

## All cigarettes are pure, but—

purity alone doesn't make a  
cigarette SENSIBLE.

We don't know of a single  
one of our competitors who  
doesn't make his cigarettes of  
pure tobacco.

But a pure cigarette that  
didn't taste just right wouldn't  
do for you, would it?

And to be really sensible a  
cigarette must give you more  
than purity and a good taste.

It must be cool and friendly  
to your throat and tongue.  
And it must leave you feeling  
fine after smoking all day.

Fatimas are not the only  
cigarette that measure up to  
all these requirements. There  
are other sensible ones.

But Fatimas seem to have  
a big margin in their favor on  
their good taste. Otherwise  
they could not outsell all other  
cigarettes costing over 5c.

You can't tell whether they  
will just suit your taste until  
you try them.

At the same time, you can  
easily prove how sensible  
they are by these two tests.

Most men who try Fatimas  
say "Good Bye!" to all other  
cigarettes right away. That's  
why Fatimas sell so fast.

Why don't you try Fatimas  
today?

*Light & Agreeable to*

FATIMA was the Only Cigarette  
Awarded the Grand Prize at the Pan-  
ama-Pacific International Exposition.

## TWO TESTS FOR ANY CIGARETTE

The taste of the cigarette—according  
to the leading tobacco journal—is up to the  
operator. But there are other qualities  
that you should look for in the cigarette  
that you are going to smoke. Here are a couple of tests  
that may help the average smoker to  
choose more wisely between different  
kinds of cigarettes.

The first test is for coolness, which  
means more comfort to the throat and  
tongue. Light any cigarette. Draw in a  
leak of smoke—a small, ordinary puff  
it "draws". Now blow out the smoke.  
If the cigarette contains a high grade  
of mild tobacco leaves, combined in just  
the right proportion, it will always feel  
cool and smooth both to your throat  
and to your tongue.

On the other hand, if the proportion  
is not right and if the cigarette contains  
inferior grades of tobacco or hidden  
amounts of rank, oily leaf, you will feel a  
stinging sting at the tip of your throat,  
or that "sandpaper" tickle in your throat.

Test number two—How do you feel  
after smoking all day?

If the tobacco in the cigarette includes  
all of the various grades of tobacco prop-  
erly mixed by age—and if they have  
qualities to neutralize any unpleasant  
taste in each of the different types of  
tobacco, you will be able to smoke prac-  
tically whenever you feel like it through-  
out the day without feeling any effect from it.

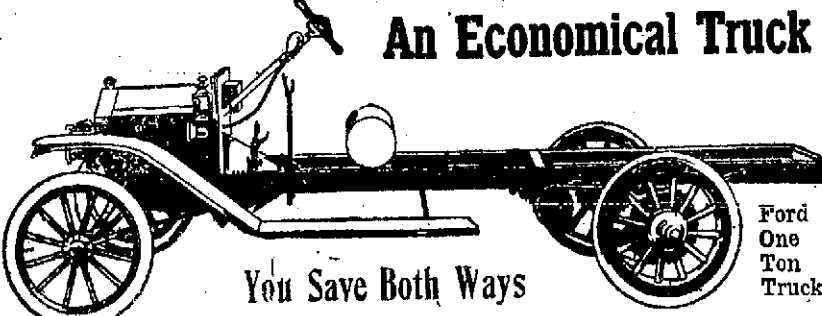

But with another cigarette in which the  
blend is less skillful, even though the to-  
bacco is of the highest grade, you will  
find along towards the end of the day  
that you are likely to have that feeling  
of having "smoked too much."

Clip out these tests and  
try them on Fatima

**PLENTY OF MATERIAL FOR FISH-STORIES COMING ON SUNDAY**  
Pullman Accommodations for 360,000 Fry for Huntington Lake

Three hundred and sixty thousand little wiggly fish—sufficient in number and activity to insure a story telling material for every angle who casts his line in the waters of the Huntington Lake region during the next several seasons—will arrive by rail in Fresno next Saturday.

Not even a Pullman sleeper could provide the accommodations that are given on the State Fish and Game Commission car which will bring the fish from the Shasta hatchery to this city. One hundred and ten cars with a special apparatus to provide fresh air and food are provided on the car for the convenience of the fish. Each car will be loaded with 360,000 fry.

The car will remain over night in Fresno and on Sunday it will go to El Prado where the fry will be transferred to two box cars on the San Joaquin and Eastern railroad. After reaching the mountains the fish will be taken to an additional height of 5,000 feet by a hoist for the distribution in the lakes and streams.

One ton of ice will be used in regulating the temperature of the fish between here and their mountain homes. In the high altitudes the temperatures will be raised.

In the distribution many of the fish will be carried by mules to the various streams. One hundred cans of the fish will be placed in the Huntington Lake and the remainder will be equally divided between the Shaver Lake and Carlson's resort. Many of the fish will not be planted directly in the lakes but rather in the streams leading into the lakes. Here they are intended to spend their days in childish play until they grow up and can venture into the depths of the lakes. Owing to the abundance of

**FRESNANS ATTEND JONES FUNERAL**  
Last Rites of Prominent Man Held in Oakland Yesterday

The late J. S. Jones, influential business man and citizen of Fresno, was honored by a score or more of his friends and associates, when the funeral was conducted in Oakland yesterday afternoon at 2 o'clock.

J. S. Jones was a member of the board of city park commissioners, vice president of the Fresno Savings Bank, and a widely known business man throughout the county, who was closely identified with many civic enterprises.

The Sequoia and Elks clubs of this city were represented by several members. Dr. Montgomery Thomas and A. V. Rudy were present from the Sequoia Club and C. H. Staples, S. A. Lines and Lawrence Bracken attended for the Elks Club. Among the others in attendance were W. D. Mitchell of Sanger and A. L. Hobbins of Fresno.

The funeral was held from the residence of E. P. Heald, 2529 Telegraph avenue.

The Masonic burial service was used. The body was cremated. The deceased became ill about three weeks ago. When he declined rapidly in health, he was taken to San Francisco, where he died, following an operation last Tuesday.

Funeral in the Huntington Lake this year is not considered necessary.

This carload of fish marks the third annual planting in Huntington Lake. In the first year 60,000 fry were planted and last year the first carload of 300,000 fry was planted.

**INVITE LOS ANGELES SPRINTERS**

LOS ANGELES, Sept. 13.—Howard P. Drew announced today he had received an invitation from the Amateur Athletic Union officials in New York City to compete for the national sprinting championship.

**SCHOOLS OF FRESNO REOPEN AFTER VACATION**

First Day's Registration Placed at 5795; Big Increases Today

Begin Sessions in Six New Buildings Costing \$450,000

While the opening of the fall term marked the tragic termination of three months of vacation joy for the greater part of Fresno's 3000 school children yesterday, all pupils and teachers took up their work with delight in the new buildings and the beginning of the school year.

The strike of the 9 o'clock bell the classes were resumed and as the teachers took charge of affairs the thoughts of the "old swimming" and the baseball games, the fishing trips, the vacation visits and the other things of the summer vanished. In their place thoughts of lessons, the worries of books and the fears of problems held away and another term of school work was begun.

The initial enrollment shows a registration of 5795 pupils in the Fresno schools. Increases in this number are expected today and throughout the week, but it is believed that the normal enrollment will not be reached until the end of the month. This registration is close to the first day registration last year.

Classes in all the new schools were organized yesterday and work began without a hitch. The state text books were distributed and a short time after the opening of classes, the operating smoothly in the elementary schools. In the high school most of the time was spent in making out the programs of study.

Commenting on the opening day, Superintendent C. C. Starr said last night, "From every point I feel that we are starting out on a very prosperous year and the results should be the best."

Night School Started

The Fresno Evening High school was successfully started last night with enthusiastic classes taking up courses in dress making, mechanical drawing and English. These classes will convene on Monday, Wednesday and Friday evenings.

This evening other classes will be organized in automobile repairing, cooking and typewriting for sessions on Tuesday and Thursday evenings.

A very large attendance is anticipated in all the evening work as soon as the classes are organized. Night schools in the large cities are attracting great numbers of young people who specialize in the evening along the line of work that they follow in the day time, so that over-crowded conditions are expected in some of the night classes here.

First Registration

The enrollment made yesterday is as follows:

Columbia, 491; Emerson, 534; Edison, 147; Hawthorne, 447; Jackson, 277; Jefferson, 163; Kirk, 136; Lincoln, 431; Longfellow, 240; Lowell, 149; Washington, 431; Webster, 425; Kimball, 55; High, 275; Total, 5735.
--

There was also an enrollment of 200 at the Normal Training school, operated by the state. In the Junior college the enrollment is 75 students.

New teachers in the department are to continue in the positions originally assigned to them until changes are made by Superintendent C. C. Starr today. A few changes are to be made.

**Boosters Decide to Strengthen Team for Championship Series**

Not to be outdone by the Boosters in collecting a squad of experienced ball players, the Boosters will appear in the second game of the championship finals next Sunday with a strengthened team. Manager Walters, after a conference yesterday with city league officials, decided to drop the protest filed against Sunday's game. He will follow the lead of Manager Walters and select several new players for the remainder of the series.

**Goudy Wins 300-Mile Motorcycle Race and Sets Record for Distance**

CHICAGO, Sept. 12.—F. Goudy won the 300-mile motorcycle race at the Speedway yesterday in 3:29:51. T. Carroll was second in 3:39:17, and R. Wehman third in 3:47:12. Goudy's time established a new record for the distance. Twenty-seven pilots started in the race, but the race proved too much for nineteen of the number, and at various distances throughout the race they dropped out, leaving eight to finish.

Goudy's average time for the distance was 55.5 miles an hour.

**High School Athletes of Kern County Favor American Football**

BAKERSFIELD, Sept. 13.—The Kern County high school athletes will play an American football game this season if the other schools in the league decide on that style of game, according to Coach D. M. Griffith of this city today. Griffith stated that the local players prefer the American game, and he personally favors the change from hockey to American football, on the grounds that he thinks the old game will be universally adopted in this state within a few years. Should the other schools decide to maintain hockey, however, the locals will abide by the popular choice.

Griffith received a telegram today from the league authorities asking what this school intended to play, demanding an immediate answer. The local management wired back that the American game is preferred but that the local school will play whatever the other schools wish.

**Endurance Swimmer in Water Almost 16 Hours**

BOSTON, Sept. 12.—What is claimed to be the American endurance swimming record was established today by Charles Tott of this city, who was in the water 15 hours and 47 minutes, while swimming from Charlestown bridge to Boston Light and back. The distance is estimated at twenty-four miles.

**Billiard Tournament to Open With 12 Players**

A pocket billiard tournament will open at the Fresno Y. M. C. A. Thursday, September 16, with twelve of the association's best players entered. A fancy race will be given for first prize and a silver watch for second. Games will be continuous and each player will play fifty points against all the others.

**POSTPONE TENNIS TOURNAMENT**

PHILADELPHIA, Sept. 13.—Play in the annual tournament for the intercollegiate lawn tennis championship which was to have started today on the campus of the Marion Cricket Club at Haverford was delayed until tomorrow in order to give some of the contestants who had been in other tournaments last week another day's rest.

**TULAREANS PLAY NIGHT TENNIS**

TULARE, Sept. 12.—Tulare tennis players started practicing on the illuminated courts tonight in preparation for the city tournament to be held next Sunday. Two silver cups will be awarded the winners in doubles and singles. Players to represent Tulare at the county tournament in Visalia next month will be selected after this tournament.

**CHARGES TRAINING MEN IN PERJURY**

Desperate Defense Being Made of Men Held for Graft

INDIANAPOLIS, Sept. 13.—Something of a sensation was sprung by the defense this afternoon in the trial of Joseph E. Bell, charged with election conspiracy, when M. A. Ryan, in outlining the mayor's case, asserted that the defense would prove that "a training school for perjurers was conducted in Chicago by agents of the prosecutor's office." Attorney Ryan began his speech after Prosecutor A. J. Becker completed his opening statement for the state.

"David R. Masterson, a crook, employed by a member of the prosecutor's office, went to Chicago and advertised for men to come to Indiana and testify in this case," Attorney Ryan said. "He conducted a training school for perjurers, gave them descriptions of Bell, Tom Taggart and others; pointed out on a map of Indianapolis the location of hotels and voting places and gave them contracts promising them immunity and protecting them from arrest."

These men were paid at the rate of \$5 a day, asserted Ryan, but 12 of each day's pay was held back "until they came through on the witness stand."

**Fall Schedule Physical Department at Y. M. C. A.**

The fall schedule of classes for the physical department of the Young Men's Christian Association has been announced by Charles H. Touze, physical director, as follows:

Business men, 5:30 to 8:30 p. m.—Monday, Tuesday, Wednesday and Friday.

Professional men, noon hour—Monday, Wednesday and Friday.

Seniors, 8 to 9:30—Monday and Friday, 6:30 to 7:30—Tuesday.

High school and intermediates—4:15 to 5 p. m.—Monday and Wednesday; 5 to 6 p. m.—Tuesday and Friday; 7 to 7:30—Saturday.

Business boys, 7:15 to 7:45—Monday; 6:45 to 7:15 p. m.—Wednesday and Friday; 7 to 7:30 p. m.—Saturday.

Juniors, 3:45 to 4:15—Monday; 4 to 5 p. m.—Tuesday; 10:30 to 11:30 a. m.—Saturday.

Preparatory boys, 3:30 to 4 p. m.—Tuesday; 3 to 10:30 a. m.—Saturday.

Boy leaders, 4 to 5 p. m.—Monday.

Senior leaders, 4 to 5 p. m.—Wednesday.

Women, 2 to 3 o'clock—Monday, Wednesday and Friday.

Swimming instruction: Boys 2:30 to 4:15 p. m.—Tuesday; men, 6:30 to 7 p. m.—Friday.

Contest games, 7 to 9:30 p. m.—Tuesday and Friday.

**Rain Interferes With Races On Grand Circuit**

SYRACUSE, N. Y., Sept. 13.—Rain caused a postponement of the grand circuit program today, only the first heat of the Messina Springs amateur sweepstakes for 2-year-old trotters being raced. The 2:57 pace, the 2:14 pace, 2:13 trot, Messina Springs sweepstakes for 2 and 3-year-olds and the 2:55 trot are on the card for tomorrow.

A field of six horses started in the Messina Springs event for 2-year-olds. Sunbush won the heat by a neck, with Beverly second.

Summary:

Messina Springs sweepstakes for 2-year-old colts, purse 1,200, (unfished):	
Sunbush, b c, Sahib-Miss Sub-Rosa, (Jones)	1
Revelry, blk g, (White)	2
Roy Blinn, b s, (Miles)	3
Lord Monte, b c, (Hopkins)	4
Alamora, b f, (Weimore)	5
Time—2:28.4.	

**Yale and Princeton Men Will Enter Golf Finals**

GREENWICH, Conn., Sept. 13.—Intercollegiate golf reached the final stage today when Grant A. Peacock of Princeton and Francis R. Bloomer of Yale came through the semi-final round. Peacock defeated John Marshall, Jr. of Williams by three up and two to play, while Bloomer disposed of Louis L. Breddin, another Yale player, in easy fashion, the margin being seven and six.

**Check Stomach Catarrh Before It Gets a Death Grip!!**

THERE'S no better time to declare war on catarrh, than when you first discover its presence, and remember, most people nowadays suffer with catarrhal poisoning, in one form or another.

Early treatment inwardly directed, such as is given by SMITH BROS.' CATARRH REMEDY, is the surest means of driving catarrh out of the system.

ALWAYS EFFECTIVE.

Smith Brothers Catarrh Remedy never fails to give relief, even the most stubborn cases, and has cured many patients who were on the verge of dyspepsia, brought on by a general weakening of the stomach.

**1916 MARIPOSA STREET BET. I AND J**

**10-Days for \$37.50**  
Ocean excursion from PIER 16, SAN FRANCISCO, leaving at 4 P. M. every THURSDAY and returning a week from the following Monday.

The trip includes BERTH and MEALS without extra charge

The ROUND-THE-SOUND EXCURSION, sometimes called the "SUITCASE CRUISE," is the lowest priced, as well as the most attractive sight seeing trip from San Francisco. It is a real ocean voyage and brings good health and vigor. A trip like this is an absolute tonic for people tired of hot weather, or for sufferers from malaria.

But the biggest charm is sightseeing; see the GOLDEN GATE with its finest of all views of the Exposition; the PACIFIC OCEAN, with sea life, birds and fish; the LIGHTHOUSES and HEADLANDS and the famous STRAITS OF SAN JUAN de FUCA, 60 miles long and 20 miles wide, with forests and snowcapped peaks bordering; then SEATTLE, TACOMA, EVERETT, BELLINGHAM, ANACORTES, VANCOUVER and VICTORIA. Ample stops at all points.

A big steamship leaves SAN FRANCISCO every day

For LOS ANGELES, Monday, Wednesday and Friday, 4 p. m., and Sunday, 2 p. m.; for SAN DIEGO, Monday and Friday, 4 p. m.; for SEATTLE, Tuesday and Saturday noon and Thursday at 4 p. m.; for VICTORIA, Thursday, 4 p. m.; for ENTERPRISE, July 27, Aug. 1, 5, 12, 16, 20, 24, 28, 31; 29, 31, 32, 35, 38, 41, 44, 47, 50, 53, 56, 59, 62, 65, 68, 71, 74, 77, 80, 83, 86, 89, 92, 95, 98, 101, 104, 107, 110, 113, 116, 119, 122, 125, 128, 131, 134, 137, 140, 143, 146, 149, 152, 155, 158, 161, 164, 167, 170, 173, 176, 179, 182, 185, 188, 191, 194, 197, 200, 203, 206, 209, 212, 215, 218, 221, 224, 227, 230, **PATTERSON ESTATE SABOTAGE LABELS**  
**OWES \$64,078 TO STATE**  
Inheritance Tax Appraiser Files Report With County Clerk  
Clear Value of Banker's Estate Is Reduced to \$1,384,064

That \$64,078.31 is due the state of California from the estate of the late T. W. Patterson, millionaire banker of this city, who died March 14, 1914, in San Francisco, is contained in the report filed with the county clerk yesterday by Milton M. Dearling, inheritance tax appraiser. The inventory and appraisal of the estate made some three ago and filed in the Superior Court amounted to \$1,679,002.57, but this amount has been reduced to \$1,384,064.52, which is set forth as the clear value of the estate at time of the death of Mr. Patterson.

Various amounts, ranging from \$25 to \$140,232, have been deducted from the original appraisement. The total deductions reach \$294,938.05. Attorneys for the estate and for the state controller have stipulated that the original appraisement for the stock of the Patterson Ranch Company was too high and a reduction of \$125,000 has been made.

Net claims against the estate as allowed by the executor and the claims of the German-Savings & Loan Society for \$100,000 an indorsement of a note for the Central Land & Trust Company, but not allowed by the executor of the estate, amount to \$140,232.36.

Inheritance tax is due from the estate as follows:

\$225 from Elizabeth D. Mace, cousin, on \$10,000; \$225 from Kate T. Mace, cousin, on \$10,000; \$1611 from Lizzie B. Patterson, widow, on \$35,000.

**FRESNO GIRL HOME THREE BUILDINGS BURN; LOSS \$4,000**  
Ventura Rooming House Destroyed; I. W. W. Headquarters Damaged  
A \$4,000 fire last night at 7:15 o'clock destroyed the Ventura rooming house, Ventura avenue, and I. W. W. headquarters, partially destroying the I. W. W. headquarters in the rear, and damaged the home of John O'Keefe, 547 F street to the extent of \$200. The origin is unknown, but occurred in the rooming house.

When the department apparatus arrived, the three buildings were enveloped in flames. The I. W. W. headquarters and the O'Keefe residence were saved from a total loss, when high pressure lines were played on each of the buildings.

The Ventura rooming house is owned by Adam Rovinsky, and is one of the land marks on F street. It was formerly the old Malaga Hotel, and was moved to this city over fourteen years ago. It was a two-story structure, containing seventy rooms. The loss in building and contents is placed at \$3500.

A small fire believed to have been set, was discovered in the barn of P. Gross, 553 H street yesterday afternoon at 6 o'clock. The blaze was extinguished after it had destroyed \$2 worth of hay.

**M'LAUGHLIN TRIAL SET FOR THURSDAY**  
Salesman Out On Bonds of S. N. Griffiths and White Brothers

John McLaughlin, formerly a salesman for the San Joaquin Valley Investment Company, will be given a hearing on the charge of obtaining a note under false pretenses Thursday morning at 10 o'clock in Judge Graham's court. He was released from the custody of Sheriff Thompson last night at 9:30 on \$7,000 bonds.

The bonds were signed by S. N. Griffiths and W. S. and C. J. White, Hanford ranchers. The bond was accepted by Judge Graham, who granted the release of McLaughlin.

The head was placed at \$7,000 by Judge Graham yesterday morning. In the afternoon the prisoner was taken before the court and informed of his legal rights. The hearing date was set.

McLaughlin was arrested by Deputy Sheriff Thompson at Reno, Nevada, last week, fearing that he would be restrained from taking his prisoner from the state by a writ of prohibition the officer left during the night in an automobile.

The complaint charges that McLaughlin obtained a \$2,500 note from Beldin Warner, a Selma rancher, under false pretenses. Aside from a general denial of the charge, the accused man has not made a statement for publication.

only her photograph, but is as official a looking document as the credentials of a prime minister.

All her photographs, except a large number of those of relatives in German uniform and group pictures of companies and other such likenesses that would give an enemy no information, as well as her personal diary, were taken from her. Only personal letters that were carefully read by officers at the border, were allowed to remain with her personal effects.

Mr. Dau has five near relatives now serving with the German army, plus groups of whom Miss Dau was able to bring home. These are Holzer Dau, 23 years old, a nephew, of the Reserve Artillery Corps; Thorwald Dau, a nephew, of an infantry regiment, whose picture was taken just as he was recovering from typhoid; George Dau, brother of the infantry landsturm; John Dau, a brother, in the commissary department; M. Briz, a brother-in-law, of the younger or sharpshooters, now serving in the Carpathians.

Miss Dau seems none the worse for her experiences, but says she certainly was glad to see the Statue of Liberty on approaching New York. "The bread was enough to make one glad to get home. While there was enough, sometimes there was sand in it," Miss Dau said.

**"NO RAIN" IS DAY'S FORECAST**  
Raisin Growers Pleased With Prospect of Continued Fair Weather

Raisin growers will receive with jubilation the prediction that today is likely to bring no rain.

The local forecast promises unsettled and probably cloudy weather today with slowly rising temperature. Light variable winds, mostly northwest, are also assured.

"Storm centers of considerable intensity appear over southern Colorado and northern Montana," said W. E. Bennett, government observer, in commenting on the threatening conditions of last evening. "The barometer is low over the western sections also but relatively it is highest along the Pacific coast. It is cloudy throughout the state and the weather is somewhat unsettled but was not especially threatening at 5 p. m. Cloudiness will probably continue over Tuesday but present indications are that the disturbances will pass without rain in this vicinity."

**SAYS MAN CRUEL TO HIS CHILDREN**  
Complaints were filed in the juvenile court yesterday by Mrs. Jessie Wilson asking that Lulu Price, aged 6; Marion Price, aged 4, and Dorothy Price, aged 2, be adjudged wards of the juvenile court, as their home was unfit for them because of the cruelty on the part of the father, Arthur Price, 1363 Whitson street, Solma.

**UNDERTAKER SUES FOR \$348 DEBT**  
Claiming that Charles H. Miller was indebted to him to the extent of \$348.25 for funeral expenses, Curtis W. Reel started suit in the Superior Court yesterday to collect that amount. It is set forth that the debt has existed for the last two years. Reel could be attorney for the plaintiff.

**OFFICIALS RETURN FROM CONVENTION**  
Snow Says Incinerator Is Not Solution of Garbage Question

Mayor Snow, the city trustee and heads of various city departments have returned from Oakland where last week the annual convention of the League of California Municipalities was held. Mayor Snow reported a very successful meeting and said that it was generally conceded that the incinerator is not a solution of the garbage problem. The next convention will be held in Visalia but the exact date has not been set. Mayor Snow, who was president of the league this year, was succeeded by Allen H. Wright, city clerk of San Diego. Others elected to office were: Wallace Rutherford, city attorney of Napa, vice-president; H. A. Mason of San Francisco, and William J. Locke, city attorney of Alameda, secretaries.

B. E. Cronkhite, city engineer, who attended the convention, said yesterday that there was a good attendance at the opening day but that the people gradually drifted away until on the final day there was only about fifteen at the session. He blames the exposition for drawing the delegates from the meetings.

**SCHOOLS KEEP LIBRARY BUSY**  
With the reopening of the city schools, plans have been placed in operation for renewed strength in the business of the Fresno public library. An attendant was placed in charge of the juvenile department yesterday for the patronage of children between 3:30 and 6 o'clock in the afternoon. Libraries in all the schools will be placed in operation about the first of next week.
